AoL Report to the GFCB CC

March 23, 2016

The last meeting of the AoL committee is April 7. Evaluations of 4 undergraduate learning objectives are currently being assessed using a case study from a Fall 2015 MGT 498 class. Those objectives are: ethical awareness, written communication, critical thinking and global awareness.

All learning goals must be assessed for all delivery methods. Core Plus 2 online classes need to be assessed so Jean Snavely, AoL chair, asked that all departments consider what artifacts are available for assessment in core courses offered by each department. A map of learning goal coverage will be provided for each department. Curriculum maps identify coverage in all classes. Core courses should be evaluated. Results will be conveyed to all classes that include learning goal coverage.
