Greeks Go Green is a competition between all Greek organizations on campus to see who can have the "greenest" or most sustainable house or chapter. This competition will be played out using a tiered point system, with the tiers being determined by both the difficulty of the action and the action's impact on the environment. The organization with the most points submitted by 11:59 April 19th will be crowned the winner at Greek Week Convocation, earning grand prize money for their philanthropy, eco-friendly prizes each month, and the knowledge that they have made Bowling Green and the world a cleaner and better place to live. Don't miss out on this amazing opportunity to show other chapters on campus how YOURS is going green!
