

WKU Pay As You Go.

Nationwide reach plus the flexibility of pooled minutes.

In an effort to adhere to new AT&T wireless billing system requirements, reduce costs and improve service for Western Kentucky Sponsored Cellular devices, WKU is moving all cellular devices to new plans beginning April 15, 2009. The new plan rates are reflected below. University sponsored cellular devices will be charged for the block of minutes used for the month versus paying for unneeded minutes. The rates for usage are listed below and reflect the blocks of minutes that are available. This type of plan will help reduce university expenditures on cellular usage. Text message and data plans can be added on top of the voice plans as needed.
