Administrative Experience:

Interim Department Head, Department of Allied Health, Western Kentucky University (July, 2015 – Present)

Interim Department Head Accomplishments

Responsible for day-to-day department operations for the Department of Allied Health that includes Dental Hygiene, Paramedicine, Health Sciences, Health Information Management (HIM), and the Doctor of Physical Therapy (DPT) Program. Oversight and supervision of Paramedicine, HIM, and DPT accreditations.

Founding Director of the Doctor of Physical Therapy Program, Western Kentucky University (July, 2011 – Present)

Curriculum, Program, Course Development

I assumed the position of founding Director of Doctor of Physical Therapy (DPT) Program at Western Kentucky University (WKU) starting July 2011. This is only the third doctoral program at WKU. As Director of the Doctor of Physical Therapy (DPT) program, I am responsible for day-to-day operations; admissions; curriculum and course development; faculty recruitment and development; obtaining and/or maintaining Commission on Accreditation in Physical Therapy Education (CAPTE) accreditation; planning, developing, organizing, and managing all operational activities in support of the Program; hiring, supervising, making work assignments, conducting annual performance appraisals (with Department Head), administering discipline, and determining compensation for Program staff; managing the Program budget ensuring efficient and authorized use of financial resources; and overseeing full-development of the DPT Program. I am also expected to establish clinical education and professional relationships by visiting with area clinicians to garner support for the Program as well as assist the Academic Coordinator for Clinical Education in securing sites for the clinical education component of the Program, teach within my area of expertise, and continue a record of scholarship/research. Additionally, I played an integral role in establishing the current architectural floorplan for the newly acquired building and facilities for the Program. I currently have a leadership role in the College of Health and Human Services (CHHS) by being a member of the Dean's Administrative Council.

In order to matriculate students in the Summer of 2013, it was necessary for the DPT Program to submit an application and receive approval for candidacy status from CAPTE. However, approvals from the state of Kentucky Council on Post-Secondary Education (CPE) and the regional accrediting body the Southern Association of Colleges and Schools (SACS) were needed prior to December 2012 submission of the application. Separate reports were submitted and these approvals were received April 2012, for the Kentucky CPE and June 2012, for SACS. CAPTE approval for candidacy status was received on April 24, 2013.

In addition to the separate CAPTE Self Study, CPE, and SACS reports, Program development responsibilities included creation of the following documents: student and faculty manuals, policy and procedure manual, clinical education manual, systematic plan for evaluation and assessment, and numerous forms related to the Self Study.

Our DPT Program is to be self-funded and therefore is not allowed to use state funds for development. As such, the Program will be funded through revenue from tuition and fees and the nearly \$1M that has been donated for Program start-up. I continue to work closely with the Dean and Director of Development to help secure funds for the Program.

Interim Dean, School of Health and Human Sciences, University of Nevada, Las Vegas (2005-2006)

Interim Dean Accomplishments

I assumed the duties as interim Dean in May 2005 until June 2006 and was responsible for the following activities:

Added to the administrative infrastructure

- I revamped the previous support staff and added duties as follows:
 - A new Director of Advising Center (previous assistant to the Director) and 2 academic advisors (with a 3rd hired later) were relocated to an area more student friendly. The Advising Center is for the entire Division of Health Sciences, which was under my supervision.
 - Secured an administrative assistant (AA) IV position for assistant to the Dean to handle School of Health and Human Sciences (SHHS) budget concerns, all SHHS and departmental classified staff issues/concerns, and to be a liaison for SHHS information (along with the Director of Advising), etc.
 - Monthly AA meetings with the AA IV to facilitate consistency throughout the SHHS
 - Monthly training meetings for classified staff

Added to the SHHS infrastructure

- Developed a new SHHS Research Council:
 - Received \$20,000.00 from the VP of Research Services as seed money for pilot studies – this was done in an effort to facilitate research funding to help secure potential external funding
- Negotiated 300 K of renovations within the first floor laboratories in the health sciences building complex

Administrative Duties

- Submitted a new strategic plan for the SHHS with metrics to measure objectives identified by the Chairs and faculty
- Helped assemble a Division Advisory Board, meeting with prominent area clinicians and business people
- Attended several Capital Campaign events and other key UNLV activities
- Attended Dean's Council and Academic Council meetings
- Participated in Dean's Developmental Leadership activities
- Along with the Dean of Nursing, developed and implemented a Division Faculty Development Program Series (2 Mondays a month)
- Held Executive Committee meetings every 2 weeks
- Held 1 SHHS faculty meeting every month
- Chair/Faculty advising and counseling and conflict resolution
- Dean subcommittee meetings
- Search committee interviews with prospective faculty candidates
- Negotiated new faculty contracts
- Promotion and tenure evaluations
- Orchestrated a new SHHS brochure
- Negotiated new advising position contracts for existing Advisors (Advisor I to Advisor II), along with advising Director
- Orchestrated new program development in all departments (i.e., Kinesiology – Strength and Conditioning Program)

Fundraising

- Assisted the Director of Development in securing a \$10,000.00 gift to the Division from an area celebrity (earmarked for SHHS)
- Attended several fund raising events
- Met with the Director of Development at least once per week for updates
- Dean's developmental leadership seminar
- Division of Health Sciences Advisory Board meetings

Chair, Department of Physical Therapy and Founding Director of Master of Science and Doctor of Physical Therapy Programs, University of Nevada, Las Vegas (1997-2005 and 2008-2011)

Curriculum, Program, Course Development

I was the founding Director and responsible for day-to-day department operations, curriculum and course development as well as program development for the MS Physical Therapy Program at University of Nevada, Las Vegas (UNLV); as such, I completed and submitted the Declaration of Intent in November, 1997 and Self Study for accreditation in August, 2000. We received initial accreditation from CAPTE in November, 2000. I was responsible for submitting CAPTE Progress Reports August 2001, 2002, 2003, 2004, 2008, 2009, and 2010 and biennial accreditation reports 1998, 2000, 2002, and 2004 as well as the focused interim report in 1999 to the College of Commissions and the University Internal Program review in February, 2005. I submitted another Self Study in January, 2005 for our subsequent accreditation site visit in April, 2005. We received continued accreditation for additional 10 years in November, 2005 until 2015. I submitted a Doctor of Physical Therapy proposal in August 2004, which was approved in October 2004 for Summer 2005 start date at which time we matriculated our first DPT cohort. Additional duties included initiating and receiving approval of the transitional Doctor of Physical

Therapy program proposal in 2005, which was implemented from 2007-2010; spearheading strategic planning development and implementation; performing annual faculty evaluations; assisting with admissions; and undertaking a leadership role on the Dean's Executive Committee.

During my tenure as Chair, I was able to secure over \$80,000.00 in scholarship funds for physical therapy students from individual private donors as well as nearly \$400,000.00 in student scholarships from the Western Interstate Commission for Higher Education (WICHE). Additionally, I collaborated very closely with the UNLV Foundation and a private donor in securing start-up funds of over \$250,000.00 in start-up funds for the Physical Therapy Program.
