Consent	Revise Course Prerequisites/Corequisites NURS 430 Concepts of Public Health Nursing
Consent	Revise Course Prerequisites/Corequisites NURS 431 Application of Public Health Nursing

- III. Discussion: Dr. Kelley discussed the upcoming change by the Registrar's office of implementing Banner/Top Net pre/co-requisite course restrictions for student registration in all courses starting with the spring 2016 registration period. This will restrict students from enrolling in a course in which they have not completed the pre/co-requisite requirements. All departments/programs need to check their required courses that will be affected. Course overrides may need to be done and changes in pre/co-requisite requirements may need to be considered.
