Instructions and Rationale for Completed Prerequisite Coursework Worksheet

The following worksheet will assist you and the admissions committee in determining if you have and/or will have completed all of the prerequisite coursework for admission to our Master of Science in Communication Disorders program. **ALL prerequisite coursework must be completed prior to the beginning of the semester for which you are applying to be admitted.** You may wish to have your undergraduate advisor assist you with completing this. Please note that while an undergraduate degree in the area or completion of a Pre-SLP program is beneficial it will not guarantee that you have completed all of the prerequisites required for WKU.

There are four basic science courses that must be completed per ASHA guidelines. You must complete a three credit hour course in each of the following categories of science: Biological, Math/Statistics, Physical, and Social. Examples of courses accepted in each of those areas are listed below:

Biological Science: Intro to General Biology, Human Biology, Ecology, Plant Biology, Human Anatomy and Physiology (not the same as Speech A&P), Animal Biology, Cell Biology, Microbiology, or CLEP: Natural Science

Statistics: Statistics – if course does not specifically have “statistics” in the name a syllabus will be required for review. Research Methods courses are not accepted for Statistics.

Social Science: Psychology, Sociology, Anthropology, Human Geography, Gerontology, CLEP: Psychology

Physical Science: Physics, Acoustics (cannot be the same as speech and hearing sciences), Astronomy, Geology, Chemistry, Physical Geography, Environmental Science, Earth Science, CLEP: Natural Science or Chemistry

There are 7-8 core prerequisites that will fall under the communication disorders (or the appropriate departmental name it falls under at the given university) department. These courses are listed on the following worksheet and the course descriptions can be viewed at:

The following worksheet must be completed and returned along with the departmental application.
