

Faculty Research Interests

Dr. Mustafa Atici, Professor, cryptography, combinatorics and graph theory

Dr. David Erbach, Professor, software reliability, computational algebra, and SKyTeach

Dr. James Gary, Associate Professor, computer graphics, and parallel and distributed programming

Dr. Peter Hamburger, Professor, combinatorics, combinatorial geometry and graph theory

Dr. Qi. Li, Assistant Professor, computer Vision, machine learning, bioinformatics

Mrs. Chun Shen, Instructor, programming languages, artificial intelligence

Dr. Huanjing Wang, Assistant Professor, data mining, software reliability, software quality modeling

Dr. Zhonghang Xia, Associate Professor, multimedia computing and networking, distributed systems

Dr. Guangming Xing, Associate Professor, algorithm design and analysis, semi-structured database

Dr. Rong Yang, Assistant Professor, database systems, programming languages

Dr. Uta Ziegler, Professor, artificial intelligence, intelligent tutoring systems
