College of the Month—Ogden College of Science and Engineering

[Ogden College of Science and Engineering](#) encompasses the applied and basic sciences, offering a broad range of degree programs in [agriculture](#), [biology](#), [chemistry](#), [computer science](#), [construction management](#), [engineering](#), [geography](#), [geology](#), [architectural design](#), [manufacturing sciences](#), [mathematics](#), [meteorology](#), and [physics and astronomy](#). Ogden College also offers a cooperative doctoral program in chemistry with the University of Louisville.

In collaboration with the College of Education, Ogden offers the [SKyTeach Program](#) for those interested in teaching science and

math at middle or high school levels. This program is a replication of a nationally recognized program in teacher preparation developed at the University of Texas at Austin. WKU received \$2.4M in funding from Exxon/Mobil through the National Mathematics and Science Initiative to develop the SKyTeach program at WKU.

Ogden College is recognized by the high quality and success of its students and graduates that result from engagement with faculty in projects that expand on classroom instruction. The College's mission is to create an academic

environment of rigor and achievement, to cultivate a community of scholars, and to enhance interconnections among the disciplines.

Check These Out—What's going on this week?

11/6 | Election Day

11/7 | Chili and Soup Sale. 11am to 1pm in Environmental Sciences and Technology. Occurring again on November 8.

11/8 | Urinetown. An uproarious musical of greed, corruption and love, set in a future where a single malevolent company profits by charging admission for one of

humanity's most basic needs.

Amid the chaos a hero rises to lead the revolution! 8pm in FAC. Runs through November 13.

11/10 | Home football game vs. Florida Atlantic at 3pm in Houchens Industries L.T. Smith Stadium.
