**Student Identification Form: SCIENCE**

1) Which students demonstrate the most positive affect (enjoyment or excitement) towards Science?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________

2) Which students know the most about Science?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________

3) Which students value learning about Science most (importance/usefulness of Science)?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________

4) Which students are most confident in their Science abilities?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________

5) Which students demonstrate the most curiosity about Science?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________

6) Which students demonstrate the most advanced learning/problem-solving strategies for Science?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________

7) When confronted with difficulties (i.e., challenging problems), which students are most likely to continue working on the Science problem?
   1. ______________________________
   2. ______________________________
   3. ______________________________
   4. ______________________________
   5. ______________________________
