Improving Health Outcomes through Evidence-based Practice

Learning Objectives

At the conclusion of this program, the participant should be able to:

1. Discover new ways of planning a research trajectory
2. Capitalize on your strengths and gifts
3. Reflect on personal philosophies and their place in research
4. Recall the American Nurses Association Code of Ethics for Nurses, Provision 1.5
5. Identify three uncivil behaviors as perceived by nursing students
6. Discuss two behaviors to minimize incivility in nursing education
7. Evaluate the thought processes as to why men do not choose nursing as a career and what prevents them from doing so
8. Evaluate undergraduates perception of the nursing profession as a career choice in terms of sextype (gender) prestige, and career interests
9. Analyze the perceptions of undergraduate students of nursing as a career choice influenced by select demographic variables such as gender and race
