

General Education Requirements

The General Education Program is a set of requirements for all students seeking the baccalaureate degree at Western Kentucky University. It is an integral part of the undergraduate curriculum that both complements and supports the students' preparation in their major field or specialization.

The General Education Program helps students maximize their individual potential. Students develop understanding, appreciation, and acceptance of multiple "ways of knowing" (i.e., artistic, literary, philosophical, historical, scientific) through the acquisition, organization, and analysis of specific bodies of knowledge. They are encouraged to acquire aesthetic and appreciative faculties, to explore and test their own values and ethical frameworks, and to demonstrate sensitivity to diverse perspectives and cultures.

The General Education Program provides a foundation for professional success. Students learn to think critically, make rational decisions, and communicate effectively. These skills support their ability to acquire, evaluate, and use the specific knowledge in their major field or specialization and also ensure that they will be adaptable and flexible in the face of changing career plans and requirements. Students' explorations of their own values and perspectives and those of other social groups and cultures prepare them to live in a culturally diverse, globally competitive, and technologically complex world.

The General Education Program prepares students for active membership in society. It is a broadening experience that helps them acquire the shared skills, knowledge, and values that promote the well-being of society. This experience nurtures their capacity for leadership and service and helps them learn to adapt their skills and knowledge to changing societal needs.

In sum, the General Education Program gives meaning to the motto of "Life, More Life" by promoting intellectual growth, lifelong learning, and informed citizenship for all WKU graduates.

A student completing the general education program at Western Kentucky University will have:

Academic Skills

- ✓ the capacity for critical and logical thinking;
- ✓ proficiency in reading, writing, and speaking;
- ✓ competence in a language other than the native language;
- ✓ the ability to understand and apply mathematical skills and concepts;
- ✓ an informed acquaintance with major achievements in the arts and the humanities;
- ✓ a historical perspective and an understanding of connections between past and present;
- ✓ an appreciation of the complexity and variety in the world's cultures;
- ✓ an understanding of the scientific method and a knowledge of natural science and its relevance in our lives;
- ✓ an understanding of society and human behavior;
- ✓ an understanding of factors that enhance health, well-being, and quality of life.

All students following a four-year undergraduate degree program must fulfill certain general education requirements. Students are cautioned to note any special requirements governing the particular program they choose to follow. Students should refer to course descriptions or consult the department head for possible prerequisites for general education courses. The general education

requirements and the courses which will fulfill these requirements are as follows:

[h] Course section regularly offered for honors credit.

[NOTE: The list of examples under each objective is intended to illustrate possible ways to reach the general objective.]

A. Organization and Communication of Ideas 12 hours

I. English Composition 6 hours

English (ENG) 100, Introduction to College Writing [h]
