CALCULUS INSTITUTE SURVEY
Calculus AB for Experienced Teachers

Please complete and bring to our first class meeting.

1. Name ________________________________

2. Home Address ________________________________

                        ________________________________

Phone # (_____) __________

School ________________________________

Address ________________________________

                        ________________________________

Phone # (_____) __________

3. Tell me about your school: Enrollment __________, Grades __________.

% of graduates who attend college __________

Other interesting facts? ________________________________

                        ________________________________

                        ________________________________

4. Tell me about your mathematics program: No. of teachers ______

Do you track (level) your courses? ______

What are your course prerequisites for AP Calculus?

______________________________  ________________________________

______________________________  ________________________________

______________________________  ________________________________
5. Tell me about your calculus program: No. of students ___________
   How do you select students for calculus?______________________________
   Textbook: ______________________________________________________
   What technology is available for use in the classroom?________________
   Other interesting facts about your calculus course: ____________________
   __________________________________________________________________
   __________________________________________________________________

6. Tell me about your teaching experience: # years you have taught AP Calculus __________
   Have you attended other College Board Summer Institutes?____________________
   If yes, when and where? ________________________________________________
   Are there other AP activities in which you have been involved? ________________
   __________________________________________________________________
   __________________________________________________________________

7. Topic(s) in Calculus you like best to teach:
   ________________________________________________________________
   __________________________________________________________________
   __________________________________________________________________

8. Topic(s) in Calculus you like least to teach:
   ________________________________________________________________
   __________________________________________________________________
   __________________________________________________________________

9. We will be discussing issues related to the teaching of AP Calculus such as homework,
   grading, pacing, etc. Please add your concerns or interests in group discussion
   below:________________________________________________________________
   _______________________________________________________________________
   _______________________________________________________________________

10. What are your expectations for this week? _________________________________
    _____________________________________________________________________
    _____________________________________________________________________

11. I have brought, for sharing, the following materials: ____________________________
    _____________________________________________________________________
    _____________________________________________________________________
