VI. Announcements & Adjourn
Report to the Graduate Council

Date: March 17, 2016
From: Marge Maxwell, Chair, Program and Curriculum Committee

Consent Agenda Report. The GCC submits the following consent items from its March 2, 2016 meeting for approval by the Graduate Council.

1. Delete a Course - NA

2. Create a New Course

   BIOL 561 Human Parasitology

3. Revise Course

   BA 751 Strategic Leadership
   BA 752 Leading Innovation, Creativity and Change
   BA 753 Current Topics in Organizational Behavior
   BA 754 Budgeting and Financial Decision Making

4. Revise Program – NA

Action Item:

1. Proposal to Revise a Program

   0476 Doctor of Psychology in Applied Psychology
Ogden College of Science and Engineering
Department of Biology
Proposal to Create a New Course

Contact Person: Cheryl D. Davis, 270-745-6524, cheryl.davis@wku.edu

1. Identification of proposed course:

   1.1 Course prefix (subject area) and number: BIOL 561
   1.2 Course title: Human Parasitology
   1.3 Abbreviated course title: Human Parasitology
      (maximum of 30 characters or spaces)
   1.4 Credit hours: 3 Variable credit (No)
   1.5 Grade type: Standard Letter Grade
   1.6 Prerequisites/corequisites: Admission to master’s program in biology
   1.7 Course description: Course will emphasize the major parasitic pathogens and parasitic diseases of humans through lectures, case studies, digital images, and discussion of scientific literature.

2. Rationale:

   2.1 Reason for developing the proposed course: This course will strengthen our course offerings in the fields of microbiology, parasitology, and human disease. The course will emphasize human parasitic pathogens, thus benefitting graduate students with medical and global health interests. Neglected parasitic and tropical diseases have become increasingly important global health issues in recent years as a consequence of our shrinking planet, the increased frequency and ease of global travel, changing patterns of immigration, and climatic change.

   2.2 Projected enrollment in the proposed course: 10-12

   2.3 Relationship of the proposed course to courses now offered by the department: A general parasitology course (BIOL 460/460G) with a required 4 hour lab component is currently offered in the Department of Biology in alternate fall semesters. In addition, a graduate course entitled, Host-Parasite Associations (BIOL 523) is also offered in alternate years in the Department of Biology: in the Biol 523 course, host-parasite systems are explored with a major focus on ecological and evolutionary concepts. Neither of these courses have a specific focus on human parasites and parasitic diseases, and neither are available for online master’s students in biology.

   2.4 Relationship of the proposed course to courses offered in other departments: There are no parasitology courses offered in other departments at Western Kentucky University.
2.5 Relationship of the proposed course to courses offered in other institutions: Many universities across the country offer graduate coursework in human parasitology, neglected tropical diseases, and in medical parasitology. A few examples include: Ohio University – BIOS 5410 Parasitology (Human), BIOS 5440 Tropical Disease Biology; University of Southern Mississippi – BSC 510 – Human Parasitology; University of North Carolina at Charlotte – BIOL 5233 Parasitology; University of Pennsylvania – CAMB 549: Parasitology and Parasitism; University of Georgia - MIBO/PBHL/IDIS/BHSI 8260: Global Perspectives on Tropical and Emerging Infectious Diseases, CBIO 4500/6500, CBIO 4500L/6500L: Medical Parasitology

3. Discussion of proposed course:

3.1 Schedule type: L
3.2 Learning Outcomes: Upon successful completion of this course, students should be able to:
   1) Understand and appreciate the biological complexity of human parasitic pathogens and their impact on global health.
   2) Describe life cycles and transmission dynamics of the major human parasitic pathogens.
   3) Explain important principles and concepts pertaining to the morphology, physiology, immunology, pathology, and ecology of human parasites and parasitic diseases.
   4) Use their knowledge and experience to solve case studies relating to human parasitic diseases.
   5) Critically evaluate scientific literature in the field of parasitology.

3.3 Content outline:
Introduction to Human Parasitology
Kinetoplastid Parasites of Humans
Other Flagellated Parasites of Humans
Pathogenic Ameba of Humans
Apicomplexan Parasites of Humans
Digeneric Trematode Parasites of Humans
Cestode Parasites of Humans
Nematode Parasites of Humans
Ectoparasites of Humans

3.4 Student expectations and requirements:
Exams and quizzes
Case Study Assignments
Textbook reading assignments and assigned readings from the scientific literature
Discussion assignments and writing assignments
3.5 Tentative texts and course materials:
Human Parasitology, Fourth Edition (by Burton Bogitsh, Clint Carter, and Tom Oeltmann)
Assigned readings from the scientific literature as well as from other authoritative sources.

4. Resources:
4.1 Library resources: N/A
4.2 Computer resources: N/A

5. Budget implications:
5.1 Proposed method of staffing: Current Faculty
5.2 Special equipment needed: N/A
5.3 Expendable materials needed: N/A
5.4 Laboratory materials needed: N/A

6. Proposed term for implementation: Fall 2016

7. Dates of prior committee approvals:

Course Description
This course will emphasize the major parasitic pathogens and parasitic diseases of humans through lectures, case studies, digital images, reading assignments and discussion of scientific literature. Intended for students participating in the master’s program in biology.

Text & Other Readings
Human Parasitology, Fourth Edition (by Burton Bogitsh, Clint Carter, and Tom Oeltmann).

Use of Text: Assigned reading from the textbook will be a course requirement and material covered in the text will be represented on exams.

There will also be assigned readings from the scientific literature as well as from other authoritative sources.

Course Objectives: Students will

1) Be exposed to major findings, theories, and concepts in the field of human parasitology as well as in the major sub-disciplines driving contemporary research in the field.

2) Gain experience working in small groups to discuss and solve relevant clinical case studies.

3) Read, discuss and evaluate scientific literature in the field of human parasitology.
Learning Outcomes: Upon successful completion of this course, students should be able to

1) Understand and appreciate the biological complexity of human parasitic pathogens and their impact on global health.

2) Describe life cycles and transmission dynamics of the major human parasitic pathogens.

3) Explain important principles and concepts pertaining to the morphology, physiology, immunology, pathology, and ecology of human parasites and parasitic diseases.

4) Use their knowledge and experience to solve case studies relating to human parasitic diseases.

5) Critically evaluate scientific literature in the field of parasitology.

Grading: 90.0 to 100% A; 80.0 to 89.9% B; 70.0 to 79.9% C; 60.0 to 69.9% D; <60.0% F

Exams and Quizzes (450 points)
Case Studies (100 points)
Assignments/Discussions/Evaluations (100 points)

Total (650 points)

Course Information & Policies

based practices, particularly for rural and other under-served populations, in their chosen area of concentration;

• Provide ethical, competent, and professional supervision of psychological practice in their communities of practice; and

• Contribute to the practice and scholarship of psychology, consistent with the practitioner/scholar model, with the capacity to review scholarly literature, effectively integrate it with practice considerations, and evaluate outcomes.

Program Admission
Admission to the doctoral program requires the applicant to have either a master’s degree in Clinical Psychology or related field or a specialist-level degree in School Psychology. Applicants with graduate degrees from closely related fields may be considered for the program, but, if accepted, may need to take additional courses to complete the foundational coursework. Program admission is based on a comprehensive evaluation of a candidate’s application file and an interview. The application file must include:

1. GRE scores (or equivalent) evidencing minimum scores of 145 Verbal, 145 Quantitative, and 4.0 Analytic Writing. In lieu of the GRE scores, applicants can submit a portfolio that includes evidence of at least five years successful practice in the field and evidence of managerial/supervision experience or superlative practice
2. Graduate transcript(s) evidencing a minimum graduate grade point average (GPA) of 3.50 and undergraduate transcripts verifying undergraduate degree(s)
3. Three letters of recommendation from professionals in a position to evaluate the applicant’s potential for success in a doctoral program.
4. Personal statement describing professional interests, expectations from the doctoral program, and career goals.
5. Resume or curriculum vita.
International students are encouraged to apply and must meet two additional requirements. They must submit evidence of the ability to communicate in English (as evidenced by a minimum of 570 on the paper based TOEFL, a minimum of 88 on the iBT TOEFL, or a minimum of 7.0 on the IELTS Academic Version). Evidence of adequate financial resources is also required.

In addition to the application materials, interviews will be held with all viable candidates based on review of the application file. The purpose of the interview is to ascertain the applicant’s fit with the program’s goals and objectives and with their intended career paths (APA, 2013). In addition, the interview serves to inform potential students of the Doctor of Applied Psychology program’s mission, goals, curriculum and expectations for students.

Applicants with graduate degrees from closely related fields and international students will be considered for the program, but, if accepted, may need to take additional courses to complete the foundational coursework. Foundation coursework in clinical and school psychology programs provides the basis for understanding human behavior and consists of courses in the areas of social psychology, physiological psychology, developmental psychology, cognition/learning, and diversity/multicultural awareness. Applicants with degrees in clinical or school psychology will also have their transcripts reviewed for these foundation coursework due to variability in training across programs and universities. Because some students may lack coursework in the foundational areas of psychology, assessment of applicants’ previous graduate coursework will be important to help them be successful in the program and to be eligible for licensure upon graduation. Students will be informed of any deficiencies upon program entry when they will sign a curriculum contract identifying deficiencies in the foundational

Applicants with graduate degrees from closely related fields and international students will be considered for the program, but, if accepted, may need to take additional courses to complete the foundational coursework. Foundation coursework in clinical and school psychology programs provides the basis for understanding human behavior and consists of courses in the areas of social psychology, physiological psychology, developmental psychology, cognition/learning, and diversity/multicultural awareness. Applicants with degrees in clinical or school psychology will also have their transcripts reviewed for these foundation coursework due to variability in training across programs and universities. Because some students may lack coursework in the foundational areas of psychology, assessment of applicants’ previous graduate coursework will be important to help them be successful in the program and to be eligible for licensure upon graduation. Students will be informed of any deficiencies upon program entry when
areas of psychology that will need to be completed. Consistent with university policy, any identified deficiencies will need to be remediated prior to admission to candidacy and any courses taken as remediation for deficiencies may not be counted in the 48 hours required for the Psy.D. degree.

All applicants must also submit an affidavit affirming that they have not been convicted or charged with a felony crime or an ethical violation. A criminal background check will be required of successful applicants during the first semester of graduate study at the applicant’s expense. Individuals evidencing a history of felony conviction are not eligible for licensure in Kentucky as a psychologist. Further, training programs have an ethical obligation to disclose the inability to obtain licensure at program entry. Thus, a history of felony conviction will preclude applicants from being accepted into the Doctor of Applied Psychology program.

Please refer to the admission section (p. 11) of this catalog for Graduate School admission requirements.
outcomes, and propose, complete, and successfully defend a dissertation.

- SPED 618: Social Skills Instruction and Behavioral Programming for Students with Autism Spectrum Disorders
- SPED 618: Social Skills Instruction and Behavioral Programming for Students with ASD
Educational Leadership

Select three of the following, or equivalent courses:

EDAD 620: Seminar in Administration of Special Education
EDAD 630: Special Education Law and Finance
EDAD 640: Introduction to School Leadership
EDAD 659: Strategic Planning in Education
EDAD 677: Legal Issues for Professional Educators
EDAD 684: Instructional Leadership

Total Hours: 9

Educational Leadership (9 hours)

Select three of the following, or equivalent courses:

EDAD 585: Fundamentals of School Administration
EDAD 620: Seminar in Administration of Special Education
EDAD 630: Special Education Law and Finance
EDAD 640: Introduction to School Leadership
EDAD 659: Strategic Planning in Education
EDAD 677: Legal Issues for Professional Educators
EDAD 684: Instructional Leadership

4. Rationale:

- After attending an accreditation workshop with the American Psychological Association Council of Accreditation, it was suggested that the program streamline offerings in some of the areas in order to assure that students are all receiving the same learning experiences and achieving the same learning outcomes.
- In the same vein, the Statistics/Research Method section of the core has been revised to provide fewer course options in order to ensure that all students are receiving the same educational experience.
- The School Psychology Concentration Specialization of Therapies and Interventions with Children initially included courses that were in the process of being created and, thus, had temporary identification numbers associated with them. Those courses are currently in the approval process, but the corrected numbers have been associated with them. The Educational Leadership Concentration now includes a change in courses made by the other department where EDAD 585 has replaced the EDAD 640 course.

5. Proposed term for implementation: Fall 2016

1. **Policy Name:** Transfer Credit(s) Policy (and revision to associated catalog edits)

2. **Description:**
   
   2.1 **New (or existing):**
   
   **Transfer Credit(s)**
   
   WKU accepts transfer credit(s) earned at regionally accredited institutions of higher education. Students transferring credit from an international institution must submit an official transcript evaluation of credit from an international credential evaluation service recognized by the National Association of Credential Evaluation Services (NACES) before equivalencies are determined. All transfer coursework must be documented on an official transcript with a grade of “B” or better. Application of transfer credits toward program is subject to approval by the appropriate academic department.

   Plus and minus grades are recorded as the letter grade only. In cooperative or joint programs with other universities, credits earned in the program at these institutions are not considered transfer credits. **At least one-half of credits applied toward degree or certificate requirements must be earned at Western Kentucky University.**

   **Catalog revisions associated with Transfer Credit(s) Policy:**
   
   **Program of Study**
   
   All graduate degree and certificate seeking students must submit a planned program of study to the Graduate School for final approval. The program of study serves as a contract between the student and the University and defines the minimum requirements for the degree or certificate. The program of study is developed jointly by the graduate advisor and the student.

   Students in graduate education programs which lead to teacher certification must have their programs of study approved by the **WKU Educator** Certification Officer prior to submission to the Graduate School.

   A maximum of 12 hours of graduate course work may be duplicated on-one additional graduate degree.
Transfer Credit(s)
WKU accepts transfer credit(s) earned at regionally accredited institutions of higher education. Students transferring credit from an international institution must submit an official transcript evaluation of credit from an international credential evaluation service recognized by the National Association of Credential Evaluation Services (NACES) before equivalencies are determined. All transfer coursework must be documented on an official transcript with a grade of “B” or better. Application of transfer credits toward program is subject to approval by the appropriate academic department.

Plus and minus grades are recorded as the letter grade only. In cooperative or joint programs with other universities, credits earned in the program at these institutions are not considered transfer credits. At least one-half of credits applied toward degree or certificate requirements must be earned at Western Kentucky University.

Catalog Revision Associated with Transfer Credit(s) Policy:
Program of Study
All graduate degree and certificate seeking students must submit a planned program of study to the Graduate School for final approval. The program of study serves as a contract between the student and the University and defines the minimum requirements for the degree or certificate. The program of study is developed jointly by the graduate advisor and the student.

Students in graduate education programs which lead to teacher certification must have their programs of study approved by the WKU Educator Certification Officer prior to submission to the Graduate School.

A maximum of 12 hours of graduate course work may be duplicated on one additional graduate degree.

3. Rationale for proposed policy: The proposed policy revision eliminates counting WKU coursework as transfer coursework and clarifies transfer coursework as that which was earned at another institution. Applying coursework to a student’s program of study that was earned at WKU prior to admission in a program, or earned while pursuing another program, will be at the discretion of the faculty advisor as shown on the student’s Program of Study.

4. Impact on existing academic or non-academic policies:
4.1 Impact on policies: None
4.2 Impact on populations affected: All graduate programs impacted as described in #3.

5. Term of implementation: 201610

6. Dates of committee approvals:
   Graduate Council Policy Committee (if applicable)
   Graduate Council 3/17/2016

   University Senate
