

**The String Project: We are All Connected.
PCAL Version**

PCAL is hosting Chelsea and Mariano Cortez, The String Project Photographer Team for a large panels string project exhibit at FAC in April 2022 with accompanying mini-string photo station. All WKU faculty, staff, and students are invited to take fun friendship selfies while holding the same string shown in the original string project photos.

THE STRING PROJECT, a symbol of an invisible human connection, highlights the unity through mutual **respect, compassion, love, empathy, and hope** for the future we want to create together.

WKU PCAL is a place where we plant our seeds to nurture and support all of the above human values. The knowledge rooted in kindness and goodwill through our pursuit of study in various chosen disciplines will make us free, and rise to the highest level of Arts and Humanities achievement.

For more information, visit <https://www.thestringproject.org/>, or contact Dr. Miwon Choe, miwon.choe@wku.edu, Professor of Art Education and Art2Dream Project Coordinator.
