Assessment Cycle Plan:					
Program student	learning outcomes were added to CourseLeaf. There are no anticipated changes in terms of the assessment timeline.				

Program Student Learning Outcome 1					
Program Student Learning Outcome	Students will demonstrate advanced knowledge of research techniques relative to recreation and sport.				
Measurement Instrument 1	Direct measures of student learning in the research methods course, to evaluate advanced knowledge, is the completion of a final research project. Primary elements of the research project include: -determining a research question -completing a mini literature review -conducting a needs assessment (if applicable) -critiquing scholarly articles The project consists of students assembling a title page, abstract, introduction, literature review, methodology, and references. The intent of the project is two-fold: a) to ensure students can produce quality written projects that are grounded in relevant, current research and b) to facilitate the project into a formal study beyond the duration of the course.				
Criteria for Student Success		n of the assignment, students should score 80% or a red by competently addressing each element of the a		n criteria provided. St	ident success on this
Program Success Target for this		70% of the students completing the activity will score 70% or higher on the assessment.	Percent of Program Achieving Target	76% (28/37) scored 7	70% or higher.
Methods		om all students ($N = 37$) who completed RSA 501 of	during the Pan 2022 and Sp.	Ting 2023 semesters.	
Based on your results, highlight whether the program met the goal Student Learning Outcome 1.					
Results: Overall, the results were achieved the target, while in the sp. Conclusions: The research project instrument (research project) are a	expected. One integring, 13/14 (93%) and course overappropriate for the	ll, haven't changed significantly over the past few s	eigher in the spring term than	•	

	Program Student Learning Outcome 2						
Program Student Learning Outcome	Students will ap	oply theoretical knowledge learned from RSA g	raduate courses in a practical setti	ng within recreat	ion and sport.		
Measurement Instrument 1	This assessment students include Practice Two pr Final re	The direct measurement instrument for this SLO included the assessment of the components of RSA 590 (Practicum in Recreation & Sport). This assessment requires student progress toward the SLO throughout the course. The primary elements included in the evaluation of students include: Practicum workplan proposal/revision Two progress reports Final report Agency supervisor evaluation					
Criteria for Student Success	Upon completion this activity is activity is activity is activity is activity is activity.	n of this course activity, students score 80% or aborehieved by following the instructions and requirement of the student's meeting with the agency superving progress reports; and submitting a final report	ents associated with each element. T isor; submitting a personalized scheo	his includes, but is	s not limited to,		
Program Success Target for this	Measurement	80% of students completing this activity will score 80% or higher on the overall assessment.	Percent of Program Achieving Target	95% (19/20) scor	red 80% or higher.		
Methods	Data collected o	n all students who completed RSA 590 during the	Fall 2022 ($N = 13$) and Spring 2023	(N=7).			
Based on your results, circle or	nighlight whether	the program met the goal Student Learning O	utcome 2.	⊠ Met	☐ Not Met		
		ent Cycle (Describe what worked, what didn't, a					
<u>Results</u> : The results were expected and not surprising. Typically, when students take RSA 590, they are at the end of their program and are excited to apply what they have learned from previously completed courses in a practical setting. Program faculty expected student success with this SLO, and the results yielded no surprises.							
<u>Conclusions</u> : The course was modified a bit for this assessment cycle. The modification centered around having students develop a more intentional practicum proposal, plan, and timeline. Past Practicum courses consisted of many forms that didn't allow for a strategic, intentional approach from the student as the new modification did. Effective communication between the student, site supervisor, and faculty supervisor continued to be an essential component of the experience.							
<u>Plans for Next Assessment Cycle</u> : Program faculty will continue to evaluate RSA 590 and the elements included in this SLO. Currently, four elements of the activity are included in Measurement Instrument 1. Moving forward, it may be best to separate those into two Measurement Instruments to provide a better breakdown of student success and target metrics.							

Program Student Learning Outcome 3							
Program Student Learning	Students will demonstrate competency relative to fiscal practices in recreation and sport.						
Outcome							
Measurement Instrument 1	Grant activity assignment from RSA 519 (Fiscal Practices in Recreation & Sport). Overview: External funding in the form of grants or contracts is essential for sectors in recreation and sport. Grants and contracts help professionals generate funding that aids in the completion of projects, conduct of research, etc. Three primary funding opportunities are Research Grants, Service Grants, and Contracts. Students are to locate a prospective grant and funding agency that is recreation/sport related. Additionally, they are to provide an executive summary that details the following: a) detailed description of the grant, b) deadline to apply, c) funding source, d) size of grant, e) application instructions, and f) personal reflection as to why the student feels the funding opportunity is worthwhile to pursue. Finally, students are to locate the official application and submit with their executive summary.						
Criteria for Student Success	Upon completion of the assignment, students should score 80% or above based on the evaluation criteria provided. Student success on this activity is achieved by clearly addressing each element of the assignment. Elaborating on each element with information found during the research phase is critically important.						
Program Success Target for this	Measurement	80% of the students completing the activity will score 80% or higher on the assessment	Percent of Program Achieving Target	90% (18/20) scor	red 80% or higher		
Methods	Data collected fr	om all students ($N = 20$) who completed RSA 519	during the Fall 2022 and Spring 202	23 semesters.			
Based on your results, circle or l	highlight whether	the program met the goal Student Learning O	utcome 3.	⊠ Met	☐ Not Met		
Results, Conclusion, and Plans for Next Assessment Cycle (Describe what worked, what didn't, and plan going forward) Results: The results were expected. A key piece of this activity is for the students to identify a grant in the recreation or sport industry in which they can obtain the necessary information. Students were successful in this step, and it led to overall student success. Conclusions: The grant activity in RSA 519 continues to be effective in assessing student competency and understanding of fiscal practice elements.							
Conclusions: The grant activity in RSA 519 continues to be effective in assessing student competency and understanding of fiscal practice elements. Plans for Next Assessment Cycle: Program faculty will continue to evaluate the RSA 519 grant activity assignment. Moving forward, additional direct measurement instruments may need to be considered if the target metric continues to be exceeded.

Criteria	Marginal	Satisfactory	Outstanding	Score
Introducing/ Problem statement 20	O- 6pts Neither implicit nor explicit reference is made to the topic or purpose of the article.	7- 13pts Readers are aware of the overall problem, challenge, or topic of the article	14- 20pts Topic is introduced, and groundwork is laid as to the direction of the paper. Only information found in the literature is included.	
Content and Support 30	O- 9pts Mismatch between topic area selected and the selection of articles/sources.	10- 19pts Apparent match between the selected topic area and selection of articles/sources, although perhaps not clearly articulated.	20- 30pts Shows thorough understanding of the relationship of the sources selected to the topic selected.	
Structure and Organization 15	O- 4pts No clear organization or organizational plan inconsistent.	5- 9pts Well organized with organizational plan obvious throughout.	10- 15pts Organization pattern demonstrates understanding of prior literature information on the topic (historical, general to specific, segments of the topic, etc.) and organizational plan enhances the presentation, promoting ease in reading.	
Focus/Relevancy Relevancy to the topic 10	O- 3pts A disproportionate number of sources do not relate or pertain to the topic.	4- 6pts Sources generally support or pertain to the topic.	7- 10pts The sources were directly on target and supportive or pertinent to the topic.	
Conclusion/Summary 5	O- 2pts Lacks summary or any synthesis of the information, leaving each article as a stand-alone piece and/or misinterprets the information and makes statements	3- 4pts Summarizes the overall picture obtained from the literature review and synthesizes the knowledge gained.	Spts Summarizes and shows insightful synthesis of the literature information, including analysis of gaps in and/or limitations of the research.	
APA/Style 10	O- 3pts Contains spelling or grammatical errors, does not follow APA style, lacks, or uses quotations and/or citations ineffectively or inappropriately, lack of transitions.	4- 6pts Contains no spelling or grammatical errors, follows APA style, uses quotations and citations appropriately, transitions included.	7- 10pts Contains no spelling or grammatical errors, demonstrates creative use of language, conscientiously follows APA style, uses quotations and citations to enhance written narrative, smooth transitions.	
Sources 10	0- 3pts Fewer than 3 sources and/or sources not appropriate.	4- 6pts 4 to 6 sources	7- 10pts Seven or more sources

Practicum workplan proposal/revision: (50 points) *Grade is based on level of adherence to guidelines provided.	15 Points Students are required to assess their personal goals, identify and visit with an agency willing to host them.	15 Points Students write a proposal that specifies what they will accomplish during the practicum experience, inclusive of a detailed timeline.	20 Points Students revise and resubmit proposals after receiving instructor feedback. The most common corrections relate to trying to accomplish more than is probably possible in the timeframe and not providing enough detail in the timeline. Agencies then email the instructor indicating they have read the proposal and confirm their willingness to host the student.
