

COMPUTER ANIMATION

Department of Art | Western Kentucky University

<Liberia Anima Vestra> by Mackenzie Montross

The Computer Animation program at WKU assists to prepare students for careers in the creative technological fields such as computer animation, computer and motion graphics, film, television, videography, and multi-media design; for further graduate study; and for developing an individual contemporary art practice.

Scan the QR code on the right or visit at www.wku.edu/anim for more information.

Congratulations! Four student animations had been selected by The 2019 Autumn shorts film festival.

- * <Machinations> by Cameron Tutt
- * <Lone Treasure> by Chris Lambert
- * <Small World> by Savannah Mohr
- * <Adrift > by Mackenzie Montross
