

The **Auburn University Cellular and Molecular Biosciences (AU-CMB)** program offers opportunities for outstanding students to pursue the Ph.D. degree. Areas of research focus include:

1. Genomics, Proteomics and Bioengineering.
2. Signal Transduction and Development.
3. Cellular and Molecular Biology of Disease.
4. Biochemistry and Drug Discovery

This interdisciplinary program, selected as a University, “Peak of Excellence”, involves

- Over 126 Faculty in the Colleges of Agriculture, Chemical Engineering, Human Sciences, Pharmacy, Sciences & Mathematics, and Veterinary Medicine
- Assistantships which carry a stipend of \$22,500 award for the first year
- Graduate Research Assistantship (GRA) to cover tuition
- Required laboratory rotations, giving students time to learn advanced laboratory skills & experience various areas of research opportunities
- Deadline for receipt of applications is February 1st
