Responses in red type below.

**TEACHER LEADER FOR PE TEACHERS (Master's for Rank II (3123))**

- 1) See applicable concerns identified in the Teacher Leader programs (1246). **Teacher Leader programs 1246 have been revised and approved by OELE.**
- 2) The curriculum contract includes the Praxis test disclaimer but is not necessary as there is not a Praxis test required for this certification. It also includes a reference to initial certification and a Praxis test which are not appropriate for this program. It is not clear whether a candidate has to be certified in PE to be admitted to the program. The admission and exit criteria outlined in the narrative (p.9-10) do not match the information on the contract. **PRD has been updated to address these issues.**
- 3) The Program Faculty table is blank. **PRD has been updated to show include faculty information.**
- 4) The narrative information provided on the summary analysis of the program assessments and continuous improvement plan are not program specific. **PRD has been updated with program-specific information.**
