Introduction

Bachelor of Music P-12 Integrated Track Degree Program's Relationship to Unit Conceptual Framework and Continuous Assessment Plan

Unit Conceptual Framework

WKU's *Conceptual Framework* represents beliefs and values that are shared by all programs that prepare university students to enter education professional fields. These fields include:

- Teachers in elementary, middle, and high schools
- Library media specialists
- Principals and superintendents
- School counselors
- School nurses
- School psychologists
- Speech pathologists

All these education professional preparation programs are considered by the National Council for Accreditation of Teacher Education (NCATE) and Kentucky's Education Professional Standards Board (EPSB) to represent WKU's *Professional Education Unit*. Faculty representatives from each of the education fields in the *Unit* were involved in various aspects related to the development and approval of the *Conceptual Framework*. An abridged version of the *Conceptual Framework* is attached to this document as Appendix A.

It is important to note that during the development of the Conceptual Framework, committee members thought it important to delineate all essential beliefs, ideas, and implications *even if they were difficult to measure or live out*. Thus, many beliefs, ideas, or implications reflect what the unit *aspires* to accomplish over time.

Based on these values, the Professional Education Council adopted the unit-wide *Continuous Assessment Plan*. From this plan, each program developed a Program Assessment Plan (Appendix B). As can be seen from our plan, the first "Continuous Assessment Matrix" maps out how our program attempts to live out the unit-wide assessment vision. The "Critical Performance Assessment Alignment Matrix" describes the assessments that our program uses to measure candidate progress toward the Kentucky Teacher Standards. Unless noted, all these assessments are collected within the unit's Electronic Portfolio and Accountability Systems and are used to guide decisions as indicated in the Transition Points described in the Program Assessment Plan. The "Other Key Data Collection Matrix" identifies where other unit-wide data related to the unit *Conceptual Framework* are collected within our program.

Bachelor of Music P-12 Integrated Track Degree Program Conceptual Framework

Program Overview

- ***Brief Program Description***

The Department of Music at Western Kentucky University is a fully accredited member of the National Association of Schools of Music (NASM). It emphasizes music education in the broadest sense: all people must have opportunities to increase their awareness of musical sound as aesthetic experience and to indulge selectively in that experience for richer more meaningful lives. The music curriculum promotes intellectual vitality through aesthetic awareness, informed choice, continuous assessment and preparation for life-long learning, while allowing for diversity among students' backgrounds. It focuses on the holistic approach, nurturing critical, creative, and reflective thinking skills and progressing from the obvious and concrete to the

subtle and abstract. Through interaction with other arts, disciplines, and the university curricula, it integrates student, faculty and curricular resources of the department into the cultural milieu of the professional community at the inter-national, national, state, regional and local levels. By nature, the art of music is a performance-based discipline. Continuous assessment and portfolio development, in conjunction with a comprehensive and sequential approach, occur at every level of study with students being held accountable and evaluated on pre-determined critical performance benchmarks aligned to the Kentucky Teacher Standards, which culminate with the capstone experience, student teaching.

The music department is committed to preparing pre-service teachers through a comprehensive based curriculum inclusive of knowledge, skills and pedagogy to become successful and reflective professionals in a global and ever-changing society. Music education faculty align their beliefs to the mission and beliefs of the professional education unit of Western Kentucky University (Refer to Appendix A).

With the exception of a few education courses that are available on-line or at extended campuses (Glasgow, Owensboro, and Elizabethtown), because of the applied nature of this program courses are offered on the main WKU campus in tradition classroom or music studio settings.

In alignment with the NASM standards, the expected outcomes for the candidate seeking music education P-12 certification are:

1. to provide students who wish to teach music in the public schools with opportunities to study music in a comprehensive and professional context which emphasizes technical competence, broad knowledge of music and music literature, sensitivity in musical style. and insight into the role of music in the life of man.
2. to provide students intellectual vitality to develop musical skills, concepts, and sensitivity essential to the professional life of a musician that leads to life-long learning.
3. to provide students with opportunities to derive educational principles from everyday musical experiences.
4. to provide students with skills to devise and evaluate various types of performance based teaching, learning, continuous assessment, reflective instructional practices, field experiences inclusive of student diversity and use of technology throughout undergraduate study.
5. to provide students opportunities to gain intellectual breadth through general studies, thus refining their attitudes involving human considerations, and deepening their understanding of the social, economic and cultural components that provide individual communities their identity.
6. to provide students with opportunities to develop skills not only in a primary performance area, but also in conducting, analysis, composition, and other performance areas relevant to the integrated vocal/instrumental teaching specialization.

Music education faculty compared and then revised, course requirements and expectations of professional education and core content courses to include performances, knowledge, skills, and multiple assessments as outlined in the National Standards in Music (NSM), National Association of Schools of Music Standards (NASM), Kentucky Teacher Standards (KTS) and Kentucky Education Reform Act (KERA) Initiatives: The Big Ideas as outlined in the Combined Curriculum Documents (Kentucky Program of Studies/Core Content for Assessment P-12 and EPSB themes.

The Bachelor of Music Education Integrated Track (both instrumental and vocal certification) program consists of 44/45 hours of General Education, 77 hours of the music core and 22 hours of Professional Education courses equaling 143/144 program hours.

• ***Standards Addressed by the Program***

National Standards for Arts Education (Music) are:

1. Singing alone and with others, a varied repertoire of music.
2. Performing on instruments, alone and with others, a varied repertoire of music.
3. Improvising melodies, variations, and accompaniments.
4. Composing and arranging music within specified guidelines.
5. Reading and notating music.
6. Listening to, analyzing and describing music.
7. Evaluating music and music performances.
8. Understanding relationships between music, the other arts, and disciplines outside the arts.
9. Understanding music in relation to history and culture.

NASM Standards: Over 50% must be comprised of music and music education content courses

KERA Initiatives: P-12 Big Ideas from the Program of Studies for Arts/Humanities (MUSIC)

- A. Big Idea: Structure in the Arts: Music
- B. Big Idea: Humanity in the Arts
- C. Big Idea: Purposes for Creating the Arts
- D. Big Idea: Processes in the Arts
- E. Big Idea: Interrelationships Among the Arts (High School Level only)

Kentucky Teacher Standards:

Standard 1 – Content Knowledge: Demonstrates a current and sufficient knowledge of certified content areas to develop student knowledge and performance in those areas

Standard 2 – Designs/Plans: Designs/plans instruction and learning climates that develop student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge

Standard 3 – Learning Climate: Creates a learning climate that supports the development of student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge

Standard 4 – Implements/Manages: Introduces/implements/manages instruction that develops student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge

Standard 5 – Assessment: Assesses learning and communicates results to students and others with respect to student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge

Standard 6 – Technology: Uses technology to support instruction; access and manipulate data; enhance professional growth and productivity; communicate and collaborate with colleagues, parents, and the community; and conduct research

Standard 7 – Reflection: Reflects on and evaluates specific teaching/learning situations and/or programs

Standard 8 – Collaboration: Collaborates with colleagues, parents, and other agencies to design, implement, and support learning programs that develop student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge

Standard 9 – Professional Development: Evaluates his/her overall performance with respect to modeling and teaching Kentucky's learning goals, refines the skills and processes necessary, and implements a professional development plan

Standard 10 – Leadership: Provides professional leadership within the school, community, and education profession to improve student learning and well-being

Diversity/Clinical/ Field Experiences for the BM P-12 Integrated Track Degree Program

- ***Diversity***

To ensure that all our program candidates work with diverse students, we have identified clinical experiences in all music pedagogy courses (specific instrumental and choral techniques and P-12 methods courses). These include MUS 214 String Techniques, MUS 215 Brass Techniques, MUS 315 Clarinet/Saxophone Techniques, MUS 316 Flute/Double Reed Techniques, MUS 319 Percussion Techniques and P-12 Music Methods Courses, MUS 312 Elementary Music Methods, MUS 412 Middle School Methods, MUS 415 Choral Methods, MUS 414 Choral Materials, MUS 416 Instrumental Methods and MUS 417 Marching Band Techniques.

Furthermore, as part of our Program Assessment Plan (Appendix B), clinical Field Placements associated with P-12 Methods Courses, MUS 312, 412, 415, 416, EDU 250, EDU 490 are the designated experience where music education candidates experience cultural diversity and are placed in diverse settings. We determined our most diverse settings by averaging the ethnic diversity of the schools in our service area (about 11%) and selecting schools as diverse that exceed this percentage. The following information regarding clinical and field experiences associated with specific course work provide additional opportunities for our music education candidates to address topics related to diversity in relationship to the discipline of music and clinical/field experiences.

- ***Clinical Experiences***

Unique to the Department of Music are the various types of culturally diverse, community-based clinical experiences in which students are engaged. Clinical experiences include private instruction, group instruction, techniques, and theories that are discussed, demonstrated, and personally experienced in classes related to the age level to be taught and/or the specific subject area. These experiences are all within a culturally diverse context performing music genres from all historical periods and cultures. Throughout each academic year, the department requires music education students to attend master classes and performances by internationally recognized

musicians. This Master Artist Series provides external pedagogical training representative of culturally diverse musicianship in a variety of instrumental and vocal styles (i.e. guitar, woodwinds, brass, strings, piano). The Department of Music hosts several high school music events such as the Honor Band, Choral Invitational, District Choral and Instrumental Festivals, All-State Help Sessions in which music education students attend or assist. All of these events involve culturally diverse middle and/or high school students from the region, which includes students not only from Kentucky but also Tennessee, Indiana and Ohio.

The courses aligned to the clinical experiences in instrumental music are MUS 214, String Techniques; MUS 215, Brass Techniques; MUS 315, Clarinet/Sax Techniques; MUS 316, Flute/Double Reeds Techniques; MUS 319, Percussion Techniques; and MUS 416, Instrumental Methods and vocal music are MUS 415, Choral Methods, MUS 414, Choral Materials, MUS 312, Teaching Music in the Primary Grades, and MUS 412, Teaching Music in the Middle School.

- ***Field Experiences***

All music education students are required to have field-related and P-8 pre-student teaching experiences in the public schools. A total of 10 observation hours of classroom music instruction is required in MUS 312, Teaching Music in the Primary Grades, and MUS 412, Teaching Music in the Middle School. In both Mus 312 and 412, music education students teach part of a mini-teacher work sample developed through the course work in the public schools. This P-8 Music Education Mentoring Program is a partnership between area city and county public schools. Students observe four schools that are demographically culturally diverse and select one school to work independently with a respective P-8 music educator in instructional design and teaching of a mini lesson. The public school educator evaluates the teaching experience and reports the results to the university professor. Field experiences in MUS 312 and MUS 412 include teaching multi-age, multi-ability culturally diverse music classes as well as self-contained special education music classes.

Students enrolled in MUS 414, Choral Materials; MUS 415, Choral Methods; MUS 416, Instrumental Methods; and MUS 417, Marching Band Techniques observe a minimum of 8 hours in middle school and high school choral and band programs.

All music education students participate in on-campus laboratory experiences (peer teaching) in courses such as MUS 317 Conducting I; MUS 318 Conducting II; and all specialized instrumental techniques classes. Two string music education students are selected each year to assist the county school string teacher in the teaching of over 500 students.

Specific field experiences are required in EDU 250: Introduction to Teacher Education. EDU 490: Student Teaching is the culminating field experience. EDU 250 is taught through the College of Education and Behavioral Sciences (CEBS). EDU 490 is administered by the CEBS Teacher Services but all music education student teachers are supervised by Department of Music professors.

Numerous instrumental music education students teach in summer band camps across Kentucky and are supervised/evaluated by the respective band directors as well as string students assist with orchestra programs and are evaluated by the public school orchestra director.

Finally, after the Professional Education Council adopted a unit-wide set of dispositions (see Appendix A), our program has identified the following courses and experiences where we or other field observers (e.g.,

cooperating teachers) assess our students' display of behavior associated with these dispositions. Field observers are part of the P-8 Music Education Teacher Mentoring Program associated with MUS 312 and MUS 412. The MUS 312 field observer reports also inform the Music Education Committee (MEC) regarding the observed music education professional dispositions and code of conduct policy for the pre-service music education candidates (Refer to Section 3 of Content Standards A).

A. Content Standards

1. Course Descriptions

- *Core Education Courses*

EDU 250: INTRODUCTION TO TEACHER EDUCATION (3 HOURS)

The introductory course to a career in education. The student will acquire basic knowledge of teacher ethics, career awareness, student diversity, and curriculum. Field experiences are required. Students are responsible for arranging their own transportation to designated or assigned sites.

EDU 489: STUDENT TEACHING SEMINAR (3 HOURS)

Analyzes the connection between teaching theory and actual practice. Portfolio refinement with the Teacher Performance Standards will be emphasized. Field experiences in public schools and/or other appropriate settings away from campus are required. Pre-Service Teachers are responsible for their own transportation to designated or assigned sites.

SEC 490: STUDENT TEACHING (5-10 HOURS)

EXED 330: INTRODUCTION TO EXCEPTIONAL EDUCATION: (3 HOURS)

Characteristics of exceptionality, special education programs, schools, and community resources and research relative to exceptionality. Field experiences in public schools and/or other appropriate settings away from campus are required in this course. Students are responsible for arranging their own transportation to designated or assigned sites.

PSY 310: EDUCATIONAL PSYCHOLOGY: DEVELOPMENT AND LEARNING (3 HOURS)

A required educational psychology course for students seeking teacher certification. Educational psychology is designed to give the student a thorough understanding of the theories and principles of psychology as applied to teaching and learning. The students will demonstrate knowledge, understanding, and application of theories and principles of development, learning, memory, motivation, individual differences, instruction, classroom management, and measurement and evaluation. PSY 310 may not be counted toward the psychology major or minor.

- *Core Content: Music and Music Education Courses*

MUS 100: THEORY I

Prerequisite: Theory Placement Exam. Thorough training in the melodic, harmonic and rhythmic elements of music. Triads, intervals, keys, scales, cadences, notation, rhythmic reading, sight singing, melodic and harmonic dictation, keyboard harmony.

MUS 101: THEORY II

Prerequisite: MUS 100. Continuation of melodic and harmonic dictation. Dominant seventh chords, modal scales, key relationships, modulation and the study of four-part writing. Special drills in keyboard harmony.

MUS 200: THEORY III

Prerequisite: MUS 101. Study of the harmonic technique of the eighteenth- and nineteenth-centuries. Harmonic dictation using non-harmonic tones and all seventh chords; four-part writing, modulation, keyboard harmony.

MUS 200: THEORY IV

Prerequisite: MUS 200. Continuation of Theory III drills. Chorale harmonization, altered chords, dictation of chorales. Contrapuntal techniques of the eighteenth- century.

MUS 203: MUSIC TECHNOLOGY

This course provides the student with a comprehensive overview of the current technological advances present in the music workplace.

MUS 405: CHORAL ARRANGING

Prerequisite: MUS 201. A study of the principles of part-writing, arranging, and editing for various voice groupings. Practical application for school and church choruses will be stressed.

MUS 407: ORCH./BAND ARRANGING

Prerequisite: MUS 201. A study of the characteristics and techniques of the various orchestra and band instruments. Practical experience in scoring for full symphonic orchestra and symphonic band. Performances given for selected orchestrations and arrangements.

MUS 214: STRING TECHNIQUES

This course is required for music education majors. It is designed to acquaint students with the techniques and pedagogy of the violin, viola, cello and string bass.

MUS 215: BRASS TECHNIQUES

This course is required for music education majors. It is designed to acquaint students with the techniques and pedagogy of the high and low brass families.

MUS 312: TEACH MUSIC/PRIMARY GR

A required course for music education majors which consists of developmentally appropriate techniques, methods and materials for pre-primary and primary learners. Observation and field experiences will be required.

MUS 315: CLARINET/SAXOPHONE TECH

This course is required for instrumental music education majors. It is designed to acquaint students with the techniques and pedagogy of the clarinet and saxophone.

MUS 316: FLUTE/DOUBLE REED TECH

This course is required for instrumental music education majors. It is designed to acquaint students with the techniques and pedagogy of the flute, oboe, English horn and bassoon.

MUS 319: PERCUSSION TECHNIQUES

This course is required for music education majors. It is designed to acquaint students with the techniques and pedagogy of the percussion instruments.

MUS 412: TEACH. MUSIC/MIDDLE SCH

Prerequisite: MUS 312. A required course for music education majors which consists of developmentally appropriate techniques, methods and materials for learners ages 9-14. Observation and field experiences will be required.

MUS 415: CHORAL METHODS

A study of the techniques of choral development from rehearsal procedures to performance. Emphasis is also placed on cultivating choral musicianship, program planning, and organizational development.

MUS 416: INSTRUMENTAL METHODS

Organization of the school instrumental program; problems, materials and program planning for the school orchestra and band from the elementary grades through high school; special problems in connection with concerts, festivals, materials and administrative details.

MUS 414: CHORAL MATERIALS

Prerequisite: MUS 415. A practical survey for the school and church musician of choral music from the fifteenth- through the twentieth-centuries. Course emphasis will be on the evolution of secular and sacred choral forms and performance practices which would be accessible for most choral programs.

MUS 417: MARCHING BAND TECH.

Systems, mechanics, and charting the modern exhibition marching band, including visual support units.

MUS 326: MUSIC HISTORY I

Music history from early times through Monteverdi. Assigned readings and recorded illustrations.

MUS 327: MUSIC HISTORY II

Music history from Monteverdi through Wagner. Assigned readings and recorded illustrations.

MUS 328: MUSIC HISTORY III

Music history from Wagner through the present day. Assigned readings and recorded illustrations.

MUS 155: PERFORMANCE ATTENDANCE

Prerequisite: Restricted to majors in music. Attendance at 14 recitals and/or concerts within one semester from a music department approved list.

MUS 153: APPLIED MUSIC PRINCIPAL

2-hours, Principal lessons for music majors.

MUS 353: APPLIED MUSIC PRINCIPAL

2-hours, Principal lessons for music majors.

MUS 152: VOCAL DICTION

Review of the use of the International Phonetic Alphabet and its application to the German and Italian languages using appropriate vocal literature.

MUS 162: GROUP VOICE

An exploratory course in the theory and practice of the development of the singing voice. Natural breathing, correct tone production.

MUS 160: GROUP PIANO I

A course for beginners. Scales and keyboard skills.

MUS 161: GROUP PIANO II

A course for beginners. Scales and keyboard skills.

MUS 260: GROUP PIANO III

Keyboard skills to include cadential progressions in all keys, harmonization of diatonic melodies in simple keys, playing by ear, sight reading, scales and development of techniques adequate to a moderately easy Clementi Sonata.

MUS 261: GROUP PIANO IV

Keyboard skills to include cadential progressions in all keys, harmonization of diatonic melodies in simple keys, playing by ear, sight reading, scales and development of techniques adequate to a moderately easy Clementi Sonata.

MUS 317: CONDUCTING I

Patterns for each meter, uses of the left hand, cueing posture, attacks, releases, terminology and score study.

MUS 318: CONDUCTING II

Prerequisite: MUS 317. Continuation of Conducting I. Score reading.

MUS 340: CHORAL UNION

Performing ensembles are open to the entire campus community. Most ensembles require an audition prior to membership, and there are varying levels of performance difficulty. Some of these ensembles are required for music degrees. (SUB TITLES: Choral Society, Women's Chorus, Men's Chorus).

MUS 341: UNIVERSITY CHOIR (CHORALE)

Performing ensembles are open to the entire campus community. Most ensembles require an audition prior to membership, and there are varying levels of performance difficulty. Some of these ensembles are required for music degrees.

MUS 344: UNIVERSITY ORCHESTRA

Performing ensembles are open to the entire campus community. Most ensembles require an audition prior to membership, and there are varying levels of performance difficulty. Some of these ensembles are required for music degrees.

MUS 347: MARCHING BAND

Performing ensembles are open to the entire campus community. Most ensembles require an audition prior to membership, and there are varying levels of performance difficulty. Some of these ensembles are required for music degrees.

MUS 348: BAND

Performing ensembles are open to the entire campus community. Most ensembles require an audition prior to membership, and there are varying levels of performance difficulty. Some of these ensembles are required for music degrees. (SUBTITLES: Symphonic Band, University Band, Concert Band, Wind Ensemble).

2. Program Components in Relationship to Courses

Objectives of the Bachelor of Music: option in Music Education degree, which lead to certification, infuse the Kentucky Teacher Standards, National Standards in Arts Education (Music), EPSB Themes, and the KERA Initiative: Big Ideas, and Music Dispositions which enable students to develop and demonstrate a knowledge base in:

1. aural skills: including the ability to hear, identify, and relate aesthetically the rhythmic, melodic, harmonic, and formal elements of music.
Teacher Standards: 1: Content Knowledge, 6: Technology
National Standards for Arts Education: 1,2,5,6,7

General Studies:

In addition to or in partial fulfillment of the university-wide general education requirements, students completing a degree program leading to certification in an area of Music, P-12, must complete the following courses and course work in the identified areas:

PH 100	Personal Health,	(3)
Or 2 Activity Courses		(2)
PHYS 130	Acoustics	3
PSY 100	Intro to Psychology	3
MUS 326	Music History I,	(3) (counts under music for NASM)
BIO 115,	General Biology	3

	subtotal hours in General Education	44 (45)

Degree Program Total Hours: 143 (144)

Additional Degree Requirements

Students working toward the Bachelor of Music with option in Music Education Integrated P-12 are required to participate in one major ensemble in their principal applied area each semester except for the semester in which student teaching is undertaken. Two semesters of ensembles in the opposite performance area are required for integrated and instrumental options. Students in Applied Principal music 254-453 are expected to appear on student recital. Fourteen approved recitals (MUS 155: Performance Attendance) must be attended for each semester of required Applied Principal enrollment. (MUS 153-453)

3. Program Alignment Matrices

- ***Program Alignment to Kentucky Teacher Standards, National Standards in Music, EPSB Themes, Music Dispositions, KERA Initiatives (See Table 1)***

Appendix B contains our Program Assessment Plan. The “Critical Performance Assessment Alignment Matrix” describes the assessments that our program uses to measure candidate progress toward the Kentucky Teacher Standards.

In addition to the unit/program requirements as stated in Appendix B: Music Education Program Assessment Plan, the Department of Music has identified two major transitions points toward music performance: content knowledge and music education program continuance.

TWO BM in Education Assessment Transition Points:

- End of the Sophomore Year: Barrier Exams in Performance, Music Theory and Group Piano
- After MUS 312, the Music Education Committee (MEC) reviews the dispositions of each music education candidates and makes recommendations to the student, (Refer to #3)

- ***Program Alignment to Learned Society Standards: National Association of Schools of Music***

The Department of Music is fully accredited by the National Association of Schools of Music (NASM). NASM guidelines for Bachelors degrees in music education stipulate the following balance between program components:

Music (and Music Education) Content	50%
General Education	30-35%

Professional Education (includes Student Teaching) 15-20%

Music and Music Education courses in this program total 77 hours and comprise 54% of the program.
 General Education requirements total 44 hours and comprise 31% of the program
 Professional Education requirements total 22 hours and comprise 16% of the program

All other NASM guidelines for music and music education experiences and competencies are met or exceeded by this program proposal.

4. Courses/Experiences that Address the Professional Code of Ethics

In order for candidates to be admitted into WKU's initial teacher preparation programs, they must first attend a Teacher Orientation during which the EPSB's Professional Code of Ethics is discussed. At the conclusion of the orientation, candidates must sign that they have read and are committed to upholding the code of ethics.

In addition, the introductory education foundations courses, EDU 250 and MGE 275, provide opportunities for candidates to discuss professional ethics.

The WKU Music Education Professional Disposition Review and Code of Conduct Policy for Candidates

At the end of MUS 312 course work, a three-member music education committee (MEC) will review the professional dispositions of each music education major. The evaluation process will determine a candidate's performance in the WKU education professional dispositions of values learning, personal integrity, diversity, collaboration and professionalism as defined within the WKU Dispositions Rubric. The candidate must earn an at standard rating in each category for the MEC's recommendation to the WKU Teacher Education Program.

A candidate not meeting standard in any of the education professional dispositions will meet with the Department of Music Education Committee (MEC) to devise a remediation plan with an appropriate time line. If the candidate does not meet the at standard rating at the end of the allotted time period, the MEC will not recommend the candidate to the WKU Teacher Education Program.

A component of the professional education disposition review process will include evaluation of a candidate's demonstrated conduct as it relates to the performance indicators of class attendance, class participation, emotional control and ethical behavior.

An individual who is below standard in the identified conduct dispositions will meet with the MEC to devise a conduct remediation plan with a specific time line. If the candidate does not meet the at standard rating at the end of the allotted time period, the MEC will not recommend the candidate to the WKU Teacher Education Program.

B. KERA Initiatives

The Combined Curriculum Document (CCD), located at the following url:

<http://www.education.ky.gov/KDE/Instructional+Resources/Curriculum+Documents+and+Resources/Teaching+Tools/Combined+Curriculum+Documents/>, is a resource created by the Kentucky Department of Education to show the connection between the Academic Expectations (what students should know and be able to do as a result of their school experience), the Program of Studies (the minimum required content standards students shall be taught to meet the high school graduation requirements), and the Core Content for Assessment (the content that is appropriate to be included on the state assessment). The CCD subsumes these three Kentucky P-12 curriculum requirements under the umbrella of “Big Ideas.” Table 2 describes how we introduce our candidates to the CCD and to each of the “Big Ideas” associated with our education preparation program, as well as how we ensure our candidates are prepared to teach these concepts to meet the KDE P-12 curriculum requirements in their future P-12 classrooms.

Table 2: Program Alignment to KERA “Big Ideas” for Arts/Humanities: Music
Big Idea: Structure in the Arts: Music
Understanding of the various structural components of the arts is critical to the development of other larger concepts in the arts. Structures that artists use include elements and principles of each art form, tools, media, and subject matter that impact artistic products, and specific styles and genre that provide a context for creating works. It is the artist's choice of these structural components in the creative process

<p>that results in a distinctively expressive work. Students make choices about how to use structural organizers to create meaningful works of their own. The more students understand, the greater their ability to produce, interpret, or critique artworks from other artists, cultures, and historical periods.</p> <p><i>Refer to Table 1 and Music Method Courses: 312, 412, 415, 416</i></p>
<p>Big Idea: Humanity in the Arts</p> <p>The arts reflect the beliefs, feelings, and ideals of those who create them. Experiencing the arts allows one to experience time, place, and/or personality. By experiencing the arts of various cultures, students can actually gain insight into the beliefs, feelings, and ideas of those cultures. Students also have the opportunity to experience how the arts can influence society through analysis of arts in their own lives and the arts of other cultures and historical periods. Studying the historical and cultural stylistic periods in the arts offers students an opportunity to understand the world past and present, and to learn to appreciate their own cultural heritage. Looking at the interrelationships of multiple arts disciplines across cultures and historical periods is the focus of humanities in the arts.</p> <p><i>Refer to Table 1 and Music Method Courses: 312, 412, 415, 416</i></p>
<p>Big Idea: Purposes for Creating the Arts</p> <p>The arts have played a major role throughout the history of humans. As the result of the power of the arts to communicate on a basic human level, they continue to serve a variety of purposes in society. The arts are used for artistic expression to portray specific emotions or feelings, to tell stories in a narrative manner, to imitate nature, and to persuade others. The arts bring meaning to ceremonies, rituals, celebrations, and commemorations. Additionally, they are used for recreation and to support recreational activities. Students experience the arts in a variety of roles through their own creations and performances and through those of others. Through their activities and observations, students learn to create arts and use them for a variety of purposes in society.</p> <p><i>Refer to Table 1 and Music Method Courses: 312, 412, 415, 416</i></p>
<p>Big Idea: Processes in the Arts</p> <p>There are three distinctive processes involved in the arts. These processes are creating new works, performing works for expressive purposes, and responding to artworks. Each process is critical and relies on others for completion. Artists create works to express ideas, feelings, or beliefs. The visual arts capture a moment in time while the performing arts (music, dance, drama/theatre) are performed for a live audience. The audience responds to the artistic expressions emotionally and intellectually based on the meaning of the work. Each process enhances understanding, abilities, and appreciation of others. Students involved in these processes over time will gain a great appreciation for the arts, for artists past and present, and for the value of artistic expression.</p>
<p>Big Idea: Interrelationships Among the Arts: Assessed at the High School Level Only</p> <p>The arts share commonalities in structures, purposes, creative processes, and their ability to express ideals, feelings and emotions. Studying interrelationships among the arts enables students to get a broad view of the expressiveness of the art forms as a whole, and helps to develop a full appreciation of the arts as a mirror of human kind.</p> <p><i>Refer to Table 1 and Music Method Courses: 312, 412, 415, 416</i></p>

C. EPSB Themes

Our program is committed to graduating education professionals who are prepared to work with diverse students, to assess student learning, to understand the importance of literacy across the curriculum, and to close the achievement gap. Refer to Table 1.

D. Program Faculty

See Table 4 on the next page.

¹ For example, faculty, clinical super clinical supervisor, department chair, etc.

² For example, professor, associate professor, assistant professor, adjunct professor, instructor, administrator, etc.

³ *Scholarship* is defined by NCATE as systematic inquiry into the areas related to teaching, learning, and the education of teachers and other school personnel. Scholarship includes traditional research and publication as well as the rigorous and systematic study of pedagogy, and the application of current research findings in new settings. Scholarship further presupposes submission of one's work for professional review and evaluation.

⁴ *Service* includes faculty contributions to college or university activities, schools, communities, and professional associations in ways that are consistent with the institution and unit's mission.

⁵ For example, three contributions of scholarship, leadership, and service might be 1) Scholarship - article published in a specific journal, 2) Leadership - officer of a state or national association, and 3) Service - an evaluation of a local school program. NOTE: You MUST provide evidence of SCHOLARSHIP.

⁶ Use these codes: FT/FT – full time to the university and full time to the unit/program; FT/PT – full time to the university and part time to the unit/program; or, PT/PT – part time to the university and part time to the unit/program.
