**Subject:** Please forward - Southern Star Central Gas Pipeline - Systems Analyst - IT - Owensboro, KY

Dr. Revels –

I'm certain you don't remember me in any way but I'm a graduate of the CIT program at WKU. I have worked for the past 5 years as a Systems Administrator for a large energy company (Southern Star Central Gas Pipeline) headquartered in Owensboro, KY. We recently posted an opening for the position of Systems Analyst in IT. I was wondering if you would mind to send a notice of this posting to current or soon-to-graduate students about this opportunity?

Owensboro is a great place to call home and Southern Star Central Gas Pipeline has a long history of sustained growth and stability. It's a great place to start a career.

Follows is the link to the job posting. Your help is appreciated.
