

Video Transcript for the RN to BSN program

Title Page: Western Kentucky University's Cohort Programs offers a 100% online RN to BSN program through the Department of Nursing.

Hello, I'm Dr. Cathy Abell and I'm the Coordinator of the RN to BSN program at WKU. The RN to BSN program is designed for students that have an associate degree in nursing or diploma in nursing and wish to obtain a bachelor's degree.

Throughout the program, students are engaged in a variety of activities to enhance their knowledge in teaching and learning, leadership and management, health promotion, communication, informatics, research, public health and professional issues.

The RN to BSN program is offered utilizing the online delivery method. There is one clinical course with the option to complete the requirements in your own community.

The application process involves applying to WKU and the RN to BSN program. Application deadlines are February 15th for the Fall Semester and September the 15th for the Spring Semester. Both part time and fulltime options are available. WKU's RN to BSN program is accredited by CCNE.

Again I am Dr. Cathy Abell and if you have additional questions, please call 270-745-2391. Thank you.

End Title Page: For more information about the RN to BSN program, please contact Cathy Abell, Coordinator of the RN to BSN Program at 270-745-2391 cathy.abell@wku.edu
