

March 1, 2021

To Whom It May Concern:

WKU Facilities Management employees (these “Workers”) provide services to WKU. These services are considered essential critical infrastructure services under the Department of Homeland Security guidance.

These Workers are exempt from applicable mandates or guidance that calls for individuals to remain at home (or otherwise not work) to prevent the spread of COVID-19. Potential reasons for this designation may include, among other things:

- Working for an essential critical infrastructure business (e.g., hospitals, medical clinics, assisted living facilities, pharmacies, homeless shelters, grocery stores, food delivery companies, government installations, military bases, and state and/or other federal locations, and suppliers of necessary goods and services for essential businesses);
and/or
- Performing essential critical infrastructure duties (e.g., medical care, cleaning/sanitation services, security services, making/distributing food, and providing minimum basic operations to maintain a business, such as processing payroll and employee benefits).

Accordingly, these Workers are required to perform their job duties in person, which requires the employees to commute to and from work in order to do so.

Thank you for your acknowledgment of this designation.

Sincerely,

Ken Branch
General Manager
Western Kentucky University
Facilities Management

If you have questions regarding this designation, please contact our office at 270-745-3253.
