GEOGRAPHY GEOLOGY METEOROLOGY GIS

Master's Degree in Geoscience

Program Application Instructions:

Program Application Deadlines:

March 15th for Fall and October 15 for Spring admission.

Program Admission Requirements:

- ** GRE score, with a minimum 3.5 score on the GRE Analytical Writing component, and a 3.0 overall undergraduate GPA.
- ** Minimum of 18 hours of science courses at the undergraduate level, preferably in the geosciences.
- ** A one-to-two page statement of research goals included in the application, with a copy sent to the supervising faculty member and the Department Chair (fred.siewers@wku.edu).
- ** Written evidence (email acceptance is OK) of an agreement from a graduate faculty member in the Department of Geography and Geology willing to supervise the applicant's proposed thesis research project.
- ** Passing grades (C or higher) in appropriate undergraduate coursework to support the thesis research program. For example, students pursuing a thesis project in GIS-related topics are required to have passed an introductory GIS course (GEOG 316/317) and a Spatial Data Analysis (GEOG 391) course at the undergraduate level - students should take preparatory courses in the summer semester before joining the Geoscience program if they have not previously taken these courses. If taken as a graduate student, a grade of "B" or better is required. Students should consult with their proposed thesis advisor on appropriate preparation coursework before full admission is granted. Note that GEOS 520 (Spring semester), a required course, anticipates GIS and statistical competency.
- ** Admission applications are available online and are submitted directly to the Graduate School at WKU. Copies of supporting documentation (statement of research goals and faculty supervisor agreements) should be sent directly to the Department of Geography and Geology – Attn: Graduate Committee.

Graduate Assistantship Application

- ** Students applying for a graduate assistantship must have written support from a research faculty member in the department prior to submitting an application.
- ** Assistantship Applications for the academic year must be received by March 15 of the Spring Semester.
- ** Assistantship Funds are awarded on an academic year basis only. There are typically no funding opportunities for Spring semester only.
- ** Renewal Applications for Second Year GA funding should be received by the Department's graduate committee by March 15th of the Spring Semester.
