

This is a guide to help you understand changes to course delivery as displayed in TopNet. For personalized assistance, please contact the WKU Academic and Career Development Center by calling 270-745-5065 or emailing academic.advising@wku.edu.

Traditional face to face (in-person) classes will look like this on TopNet:

	W	00011	ACCT	200	005	3.00	INTRO ACCOUNTING-FINANCIAL	Bowling Green	\$45	N/A	GH 0526	MWF	12:40 pm-01:35 pm	41	0	Callahan, R	08/24-12/11
--	---	-------	------	-----	-----	------	----------------------------	---------------	------	-----	---------	-----	-------------------	----	---	-------------	-------------

All hybrid and web classes will have a blue bar underneath the class, with detailed instructions regarding course delivery. Please read the detailed notes on your TopNet schedule for your personalized information.

Some courses have transitioned to an **online/web format**. Many online/web courses will include synchronous Zoom meetings held at specific times, online quizzes, and discussion boards. Online instruction may require students to be online during their class time or complete work on their own time.

Here is what an online/web course will look like in TopNet. It may include the words Web or Web Transition.

	R	49309	MATH	105	701	1.00	COREQ SUPPORT FOR ALGEBRA	WEB	N/A	N/A	WEB		WKU Web Crs	33	7	Billingsley, E	08/24-12/11
--	---	-------	------	-----	-----	------	---------------------------	-----	-----	-----	-----	--	-------------	----	---	----------------	-------------

The above course is an Online (Web) course. MATH 105 is required for some students taking MA 115C, MA 116C, or MATH 123, depending on test scores (see www.wku.edu/getready/documents/math_placement_7_2019.pdf). This section of MATH 105 is intended for students in MA 115C-001 who are required to take MATH 105.

This online/web course has a synchronous Zoom meeting held at a specific time.

	C	48432	ENG	105	708	2.00	SUPPLEMENTAL WRITING LAB	Web Transiti	N/A	N/A	WEB	R	11:10 am-12:05 pm	18	0	Jagers, P	08/24-12/11
--	---	-------	-----	-----	-----	------	--------------------------	--------------	-----	-----	-----	---	-------------------	----	---	-----------	-------------

^Co-requisite CRN 48431 ENG 100E-008 (T 9:35-10:55 on Zoom). This course meets online with Zoom (Thursday 11:10-12:05). Check the syllabus or contact the instructor for details.^

This online/web course will hold class meetings over Zoom, but also have mid-term and final examinations in-person.

		00883	BIOL	120	700	3.00	BIOL CONC CELLS METAB GENETICS	Web Transiti	N/A	Yes	TBA	MWF	11:30 am-12:25 pm	133	35	Wyatt, R	08/24-12/11
--	--	-------	------	-----	-----	------	--------------------------------	--------------	-----	-----	-----	-----	-------------------	-----	----	----------	-------------

Lab required with above class. Synchronous, but voluntary. Zoom during scheduled class times. Synchronous online quizzes during scheduled class times. Mid-term and Final in-person during Biol 121 or if you are not taking Biol 121 as otherwise scheduled with your Biol 120 instructor.

This online/web course will hold most class meetings over Zoom, but there are specific days with in-person meetings.

		19951	EDU	489	702	3.00	ST TEACHING SEMINAR	Web Transiti	N/A	N/A	WEB		TBA	14	11	Cutright, E	08/24-12/11
--	--	-------	-----	-----	-----	------	---------------------	--------------	-----	-----	-----	--	-----	----	----	-------------	-------------

Above course is reserved MGE/SEC P-12 5-12 students. This is an online course with 4 face-to-face meetings: Aug 21, Sept 11, Oct 16, and Oct 23

Other courses have become **hybrid**—a blend of in-person and online instruction. Students in hybrid courses might meet in a classroom once or twice a week and then in Zoom for another class session. Students may be all together in class one day a week or split into groups to come on alternate days. Courses may be 1/3, ½, or 2/3 online with face to face meetings required. They may engage in other various online activities during their class time or complete work on their own time.

In this hybrid course, students are split into groups for in-person class attendance. Instructors will notify students of their scheduled day to attend in-person.

		38804	MATH	136	012	4.00	HON: CALCULUS I	Bowling Green	N/A	N/A	COHH 1102	MW	11:30 am-12:25 pm	28	2	Munasinghe, S	08/24-12/11
											COHH 1102	TR	11:10 am-12:05 pm			Munasinghe, S	08/24-12/11
											WEB	F	11:30 am-12:25 pm			Munasinghe, S	08/24-12/11

Honors Eligibility or 3.2 overall university GPA required
 This course is hybrid with 2/3 of instruction online and requires one face-to-face meeting for each half of the class. Instructor will notify students of their assigned class day. Each half of the class will have one face-to-face lecture meeting and one face-to-face recitation meeting. The above section is for students in the Academy of Mathematics and Science in Kentucky and Honors-eligible students. Meeting times include lecture and recitation, as set by the instructor.

In this hybrid course, all students will attend class in-person on the same days each week.

This course is hybrid with 1/3 of the instruction online and requires face-to-face meetings with all students on the scheduled days.

		11957	MATH	431G	001	3.00	INTER ANALYSIS I	Bowling Green	N/A	N/A	COHH 3121	MW	09:10 am-10:05 am	2	8	Munasinghe, S	08/24-12/11
											WEB	F	09:10 am-10:05 am			Munasinghe, S	08/24-12/11

This course is hybrid with 1/3 of the instruction online and requires face-to-face meetings with all students on the scheduled days.

In this hybrid course, some of the instruction is online and some in-person meetings are required. Instructors will notify students of their scheduled day to attend in-person. There are also additional individual or small group meetings off-site for field experiences.

C		48821	GEOG	280	004	4.00	ENVIRONMENT SCI SUSTAINABILITY	Bowling Green	\$10	N/A	EST 0350	TR	02:20 pm-04:20 pm	44	0	North, L	08/24-12/11
---	--	-------	------	-----	-----	------	--------------------------------	---------------	------	-----	----------	----	-------------------	----	---	----------	-------------

This course is hybrid with 1/2 of the instruction online and requires one face-to-face meeting for each half of the class. Instructor will notify students of their assigned class day. The ratio for GEOG 280 is 75% online. Students will meet in small groups 1 out of 4 classes over a two-week period to complete labs; remaining course material will be online.
