

JOURNEY TO THE VOTE

Several WKU departments and the Warren County Public Library are partnering together to offer programming related to the anniversary of the 19th Amendment. Events will highlight various aspects of the past and present roles of women in American politics.

Topics are wide-ranging and include the suffrage movement as well as the continued disenfranchisement of women of color after the 19th Amendment's ratification. Programs will address both the historical and modern influence of women in government.
