Western Kentucky University
Department of Library Public Services
Tenure and Promotion Guidelines

Revised April 2021.

Revision Schedule

A committee composed of all tenured DLPS faculty members will review the above guidelines every five years to reflect changing departmental and University policies, or as requested by the Department Head/Chair.

Tenure and Promotion Guidelines

The Department of Library Public Services conducts the tenure and/or promotion process in accordance with the WKU Faculty Handbook and the University Libraries Guidelines for Performance, Promotion, and Tenure. If any guidelines, criteria, or processes contradict those stated in the Faculty Handbook, the Faculty Handbook will prevail.

The objective of DLPS Tenure and Promotion is to recognize a faculty member’s demonstrated, sustained achievement in teaching effectiveness and professional effectiveness as an academic librarian, research/creative activity, and University/public service.

Demonstrated achievement means sustained outstanding performance, research commitment, and professional leadership to reach the level of Professor; and sustained effective performance, research accomplishment, and professional service at the level of Associate Professor. Achievement should show professional growth and increasing professional commitment each year as one moves toward promotion, tenure, and higher ranks throughout your career.

Each faculty member is responsible for assembling evidentiary documentation and submitting a portfolio according to established deadlines. The following materials should be included:

a. A current curriculum vitae.
b. Two or three letters of support.
c. Narratives explaining accomplishments in and philosophies of professional effectiveness as an academic librarian, research/scholarship, and service during the review period.
d. Documentation in support of teaching activities or professional effectiveness as an academic librarian.
e. Documentation in support of research/scholarly activity.
f. Documentation in support of service activities.
The promotion and tenure committees will make their own evaluation of the evidence submitted by the applicants. Each candidate is considered solely on their own merit and will not be evaluated vis-à-vis another candidate. The Department Chair/Head’s and Continuance Committee’s annual evaluations are based on one year’s performance, while tenure and promotion decisions are based on an accumulated record over a longer period. Meeting the Department’s qualifications for favorable performance annually, as reflected in the annual evaluations performed by the Department Head and/or Continuance Committee, does not necessarily guarantee a positive tenure or promotion decision.

Criteria for Promotion, tenure-eligible ranks:

A. Professor:
