

# Chinese Program Completion Scenarios

- A major in Chinese requires students to take another major or minor. The Chinese major is 36 hours and the minor is 30 hours, both starting with CHIN102. We are committed to collaborating with all other programs and advisors to ensure student success at and beyond WKU.
- Study abroad is not required, but highly recommended. Currently more than over 60% of WKU Chinese majors study abroad with the aid of scholarships, including internal and external grants to defray traveling expenses.
