INTERNSHIP PROGRAM STUDENT INFORMATION

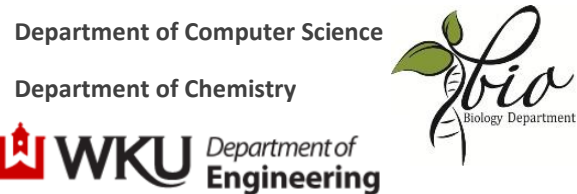

INTERNSHIP PROCESS

At Ogden College, we strive to provide our students with quality internships across a variety of industries.

Internships give you real-world experience and allow you to connect to people within the industry. Sometimes students are even able to gain employment with that company after completion of internships. The goal is to merge what you learn in the classroom with a hands-on experience in your field of study.

Internships are offered through all of our departments:

WHY AN INTERNSHIP?

For employers who have formal internship programs, 71% of them use the program to target full-time employees

Source: National Association of Colleges & Employers

95% of employers said experience is a factor in hiring decisions

Source: Quint Careers

WHAT YOU GAIN

- Real-world experience
- Hands-on learning
- Contacts in the industry
- Introduction to a potential career
- Exploration of career field
- Make yourself more marketable
