

# BOWLING GREEN POPULATION CENTER TRAINING

BOWLING GREEN PARKS AND REC  
225 3RD AVENUE  
COMMUNITY ROOM

**Free OSHA  
Training**

**March 18-21, 2013**

**Monday March 18<sup>th</sup>**

## **Overview of the Kentucky OSH Program**

**8:30 - 11:30 a.m.**

The course provides information on the application of General Industry and Construction safety and health regulations in Kentucky and the activities of the Kentucky OSH Program. The Division of OSH Enforcement information includes: inspections, accident investigations, citations, penalties, and important agency policies and practices. The Division of OSH Education and Training information includes: details on free assistance to employers, including consultative services, voluntary partnership programs, and training. This course also includes details on new and upcoming regulations and policy changes.

## **Health Hazard Recognition**

**1:00 - 4:00 p.m.**

This course provides basic information to identify potential health hazards in the workplace. Topics of discussion include how to anticipate, recognize, evaluate, and control health hazards in the workplace such as but not limited to various types of chemical exposures and noise exposure. While this course will not teach the attendee how to practice industrial hygiene, it will provide information as to the role of the industrial hygienist in the workplace and assist in determining when it may be necessary to utilize the services of an industrial hygienist.

**Tuesday March 19<sup>th</sup>**

## **Fall Protection in Construction**

**8:30 - 11:30 a.m.**

This course will cover the elements of 1926.500-503 and associated industry standards. Topics include: requirement to provide a fall protection system, the description and requirements for each fall protection system, and training requirements. Attendees should leave with a basic understanding of KyOSH's requirements for working at heights on commercial construction sites. Note: This course does not cover fall protection requirements for residential construction sites.

## **Powered Industrial Trucks**

**1:00 - 4:00 p.m.**

This course covers the basic requirements of 1910.178. Attendees will learn about the basic aspects of powered industrial trucks (primarily fork lifts), operator training requirements, safe truck operations (including traveling & safety belts), equipment modifications, and associated hazards. This course will not provide operator certification under 1910.178(L).

**Wednesday March 20<sup>nd</sup>**

## **Hazard Communication - GHS**

**8:30 - 11:30 a.m.**

This course will cover the basic requirements of 29 CFR 1910.1200 and the revised provision of the standard as they relate to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Attendees will learn about the revised standard, which will include chemical hazard classification, written program requirements, container labeling and other forms of warning, safety data sheets, and associated phase-in dates for the new requirements under GHS.

## **Hearing Conservation**

**1:00 - 4:00 p.m.**

This course covers the requirements of 29 CFR 1910.95 as it applies in General Industry. It will explain the composition of sound, the instrumentation and criteria used to determine excessive noise levels, the effects of noise on the hearing mechanism, personal protective equipment, and basic noise control methodology. A discussion of the hearing conservation requirements will also be discussed. These requirements include employee exposure monitoring, audiometric testing, hearing protection, employee training, and related recordkeeping.

**Thursday March 21<sup>st</sup>**

## **Bloodborne Pathogens**

**8:30 - 11:30 a.m.**

This course covers the requirements of 29 CFR 1910.1030 and the measures which must be implemented to protect employees from the hazards of occupational exposure to blood and other potentially infectious materials containing bloodborne pathogens, such as hepatitis B virus, (HBV) and human immunodeficiency virus (HIV). Topics of discussion include applicable definitions; infection control; engineering and work practice controls, including universal precautions, personal protective equipment, and housekeeping; medical evaluations; warning signs and labels; and training of employees.

## **Slips, trips and Falls**

**1:00 - 4:00 p.m.**

This course will cover OSHA regulations from 1910.22 through 1910.24. Through a series of case studies the attendees will develop a list of items to use in their own workplace to immediately reduce the likelihood of injury due to slip, trip or fall. Handouts and checklists and training materials provided.
