2.5 Approval for the Sale and Acquisition of Real Property as part of the Greek Village Development / Pi Kappa Alpha Fraternity [p 49]

DISCUSSION:

Regent Minter: The question I have is about the budgetary implications. I actually think the arrangement described in the last paragraph of the facts is very clever, so that’s good negotiating from multiple people. My question is about this $200,000 of the University reserve fund. What is the current amount of the reserve fund, and what is the plan for replenishing that?

President Ransdell: The reserve is $2,634,166 as of yesterday and that does not include an additional $1 million that is part of the Division of Extended Learning and Outreach (DELO) revenue several years ago. So the total reserve is $3,634,166.

Regent Minter: When was that DELO distribution of $1 million made to the reserve?

President Ransdell: Three or four years ago – is that correct, Ann?

Ms. Ann Mead: Yes, it was around that timeframe.

President Ransdell: The Board policy is to keep a reserve of $2 million, so we have been able to exceed that amount. Ann does a terrific job of keeping a close watch on that fund and knows when to refill that account with carry forward money over time. There is not a precise time by
which replenishing the reserve fund occurs, but it is something we are conscious of each budget
cycle and have never fallen below the Board policy of $2 million. In my opinion, as the
University’s budget grows, the need for a larger reserve is prudent. The reserve fund is there for
emergency purposes and to my knowledge, in 15 years, I can think of very few times when we
have drawn on the reserve fund for items other than property transactions. However, it is there
in the event we have a catastrophe of some type—a tornado, an epidemic disease, etc.—and we
feel like we have a reasonable reserve fund in place.

Regent Kennedy: Ann, is there usually a timeframe in which you like to replenish expenditures
such as this, or is this just one of those situations that we will deal with when carry forward
money is available?

Ms. Mead: I remember two years ago having the capacity to take the reserve back up to
$3 million, plus the $1 million from DELO. I like to wait and see what happens when we close
each fiscal year and then gage our ability to put money back into the University reserve fund
while making sure we meet our central commitments for one-time funding. I’ll be able to report
back when we receive the audited statements.

Regent Kennedy: Thank you.

MOTION:
Motion to approve was made by Regent Zielke, seconded by Regent Johnson, and
approved with the majority of votes. Regent Minter voted nay.

2.6 Authorization for the Sale and Acquisition of Real Property as part of the Greek Village
Development / Phi Delta Theta Fraternity [p 50]

Revision

President Ransdell: This is a completely separate transaction from item 2.5 with the Pi Kappa
Alpha fraternity and while this is not a good business deal from a dollars and cents perspective,
it’s a good deal for the University in terms of our objective to meet our Greek housing goals.

DISCUSSION:

Regent Zielke: What happens to their existing house?

President Ransdell: They will sell it.

Regent Zielke: Why don’t we buy it?
President Ransdell: We don’t want to buy a house in that historic district. We would not have a use for it. In my opinion, that would not be a good use of our funds. We could maybe turn it into rental property, but it would have to be renovated.

Regent Zielke: What assurance do you have that they don’t sell it to another fraternity and all you do is create the same situation again?

President Ransdell: Howard?

Mr. Howard Bailey: They’ve already had discussions with private citizens who want the house, so we would not be in agreement to allow them to sell it to another fraternity.

Regent Zielke: If we don’t own it, we can’t deed restrict it.

Dr. Charley Pride: This house is not in the University District. It was there before the University District was created so it is grandfathered in. If this fraternity leaves, it cannot be taken by another student organization because of zoning.

Regent Zielke: I don’t know if I would agree. David may know this too, but if there is a grandfathered property under zoning and the continued use is the same, it may be permissible. I don’t know for sure, as I’m not a planning and zoning attorney.

Regent Porter: It depends on what the zoning ordinance is.

Regent Minter: The ordinance is not written that way. The Phi Delta Theta house is in the College Hill Historic District which simply means that the house cannot be taken down and the facade cannot be significantly altered without getting prior approval from the Historic Preservation Board. President Ransdell is exactly right, that’s part of the purpose of getting these houses moved out of this district because it is not a great fit. It is better to move them into the University District where there are no such restrictions. If the Phi Delts can get a good business deal for their house, then more power to them.

President Ransdell: We would do our best to keep that type of circumstance from happening. Charley has pretty good leverage over most of the fraternities.

Mr. Bailey: It would not be in their best interest.

Regent Zielke: Fair enough.

Regent Johnson: Can you explain the trust assumption on our part. How did that come about?

Mr. John Osborne: When the Real Estate Foundation approaches potential sellers on our behalf, it is often times the best arrangement if the property is put into a trust for them. We’ve got
arrangements to allow this and it’s a win-win when that happens. So, where and when possible, we put properties into a trust in order to get it into the Real Estate Foundation. In this case, we simply assume the trust instead of a mortgage.

Regent Johnson: Who currently holds the trust?

Mr. Osborne: The Real Estate Foundation.

Regent Johnson: So, we are in essence paying ourselves? I’m a little confused on this.

President Ransdell: We don’t own it. For the University to sell it to Phi Delta Theta, we have to acquire it from the Real Estate Foundation (which is an independent unit) so we can consummate the transaction with Phi Delta Theta. So the Real Estate Foundation—to their credit—would not sell a piece of property and take a loss.

Regent Johnson: So we are paying them the $15,000?

President Ransdell: Yes.

Regent Johnson: That’s all I need to know. Thank you.

Mr. Osborne: The additional comment I would make is that when we do this, if the Real Estate Foundation holds it for a period of time, the rental income and any other income it generates while it is their possession, reduces the trust and/or mortgage and when we acquire it, we only acquire it for the remaining balance. So, the benefit of this arrangement is that they are able to take the property off the market at today’s rate and then we are able to acquire it at a future date for the balance remaining at that time. In the meantime, it is not a state facility which is also beneficial. In other words, had the University bought it, it would have become a state building. When it becomes a state facility that brings automatic requirements and codes that we would have to follow. So, this is a great arrangement we have with the Real Estate Foundation.

Chair Higdon: Any other discussion?

Regent Minter: I would just add that while this is consistent with the vision that the Board laid out, in these difficult financial times, it is hard to justify even small draws down on the reserve for something that does not have a big impact on 21,000 students. We are drawing down reserve money on a deal that does not have a large utilitarian purpose.

Chair Higdon: As a result of yesterday’s Retreat, we have one more item for discussion to be reflected in the minutes.

President Ransdell: As a Board of Regents, you cannot help but be aware of all that has unfolded in recent weeks involving Pennsylvania State University. In follow-up to the Freeh Report that was issued last week that had significant implications of several university administrative folks, I have asked Deborah Wilkins, our General Counsel, to assess the Freeh Report and to review our protocols, our procedures, and our compliance with The Clery Act that does require reporting of crimes - large or small. She will identify what needs attention in the future in order to assure this Board of our strengths and weaknesses in that regard going forward. Deborah is doing that and she will have a report at the next Board meeting. In the meantime, the Board places a lot of trust in me to ensure that I become aware and once I become aware that we act properly and that I’m completely accountable to this Board if we don’t. I will say that I’m confident that what we find will be positive and give you a sense of confidence. But I’m also confident that we might find some things we need to tweak.

Regent Zielke: To that regard, should this be a confidential Attorney-Client communication?

Ms. Wilkins: I don’t think so. I think what we will find is that we are compliant, but that we can make some improvements in some areas.

Regent Johnson: I think we would all agree that it is the cover up that got them in trouble. Did someone create an environment that allowed these incidents to occur and continue without being addressed? Not addressing those issues is where they really dropped the ball.

Regent Minter: If you look at the history of great political scandals, it is always the cover up that brings somebody down. The protection of the brand was more important than complying with local, state, and federal law. That is the tragic flaw here.

Ms. Wilkins: In the 17 years that I have been here, my philosophy has always been when I meet with people that if there is a problem or mistake, we will correct it. We are all human and we are going to make mistakes. I encourage people to be open with me and I’m open with them. I carry
that over—right or wrong—to our compliance agencies (EEOC and OCR). If we’ve done something wrong, I tell them and I let them know what we have done to address it and fix it. I agree with Patti and Jim 110%, the cover up is the problem. My job is to work with the University and officials involved, straighten it out, beg for forgiveness, and move forward.
