

Frequently Asked Questions about Grants and Research during the COVID-19 Epidemic

If you have questions about conducting your research or managing your grants during the COVID-19 epidemic, NASA SMD has prepared a Question and Answer document.

The document outlines SMD's implementation of recent guidance from the Office of Management and the Budget as well as questions regarding the processing of existing awards and the donation of Personal Protective Equipment purchased using NASA grant funds.

The document may be downloaded from the SARA library (<https://science.nasa.gov/researchers/sara/library-and-useful-links>) and will be updated as conditions change.
