## **Housing Accommodation Request Form (To be completed by a licensed professional)**

Western Kentucky University's HRL department has a residence hall system with varying environments and environmental controls available to meet resident needs.

To determine accommodations for a student, it is necessary for the University to understand the accommodation needs of each student living on campus.

Please provide responses that identify specific causes and symptoms of the student's condition, current and recommended treatment, and environmental changes that provide reasonable accommodations regarding the student's disability.

### **What specific environmental changes will accommodate the student's need(s)?**

Many types of accommodations are available for a wide variety of disabilities. WKU Housing has a variety of living environments (suite-style rooms, private rooms, private bathrooms, wheelchair accessible rooms, recently renovated HVAC systems, and apartments).

Furthermore, WKU Housing is able to discuss additional options for reasonable accommodation. An exemption from the required housing policy can be recommended based on an assessment that other available options do not adequately accommodate the student's needs.
