Old Business:

CourseLeaf Change Update – Move to bottom of agenda

Group met yesterday about this (Joint Information Item - attached)
 Learning outcomes was not part of the system
 Nee asked if there is a timeline for #4 – No – Should be set by 2025
 Kelley - Plan of action – will they come through full review – Yes
 Hudepohl did say they could be bundled, maybe 5 year academic review should look at this stuff, but colleges/departments should decide for themselves how to handle.
 Kelley said is this for Graduate level as well, it will be added later
 Lindsey need to add a date
 Grubbs do you want this done in a more organized fashion, instead of randomly?
 Hammonds answered, Depends on courses/programs and explained.
 Burris asked why - Determined it is a SACSCOC cleanup.
 Kelley talked about should the document say Undergraduate and no Graduate.
 Graduate will create their own process, possibly using our list.
 Flener made changes live to the document and it'll be added to the minutes for reference.
 Flener said it will be shared with colonnade committee next week for their meeting.
 Branham asked if we should add language in the context regarding why this is happening, YES it should, adding SACSCOC info.

Motion to Endorse – 1st/2nd: Hudepohl/Lartey

Vote: Approved (12/12)

Announcements

None

Adjourn @ 4:22pm – Motion 1st/2nd: Nee/Wilson

Respectfully Submitted
UCC Recorder
Jessica Steenbergen

Undergraduate Curriculum Committee
Meeting Minutes - October 18, 2022

Appendix

Colonnade General Education Committee
and Undergraduate Curriculum Committee

Joint Information Item

Update CourseLeaf with Existing Course Objectives/SLOs

Context:

When CourseLeaf was adopted by WKU, basic information from existing undergraduate courses and undergraduate programs was entered into the system. However, for the sake of expediency, information such as course objectives and student learning outcomes, information required on new course proposals (and revisions to existing courses), was not entered. The missing information is necessary for SACSCOC Accreditation.

Information item #1:

The Registrar's Office will do a one-time update of CourseLeaf to add learning outcomes from approved/existing Colonnade courses. Information will be obtained from approved proposals archived in the Colonnade General Education Committee shared drive.

Information item #2:

Learning outcomes for existing/approved Undergraduate Academic Programs also need to be added to CourseLeaf. The Registrar's office requests that undergraduate academic programs coordinate with Associate Deans and forward Program Learning Outcomes to the Registrar's office no later than the end of Spring 2023. Program Learning Outcomes not forwarded by the deadline will have to be added to the system through the process of full curricular review. Undergraduate Programs that were reviewed last year will start first.

Information item #3:

The Registrar's Office requests that departments review their undergraduate course inventory and suspend or delete any course they no longer wish to offer.

Information item #4:

Learning outcomes for non-Colonnade undergraduate courses also need to be added to CourseLeaf. Academic Departments should review CourseLeaf and develop a plan of action to update the missing information by end of Fall 2024.
