

Boulware Mission, Inc. Owensboro, KY

Our mission is to provide recovery and reentry skills to men who are homeless and unhoused.

Key Responsibilities:

Intake and Assessment:

Conduct thorough intake assessments and biopsychosocial evaluations to determine client needs.

Collect and analyze client histories, identifying strengths, challenges, and specific treatment goals.

Individualized Treatment Planning:

Develop and implement personalized treatment plans in collaboration with clients, ensuring alignment with their recovery goals and needs.

Regularly review and update treatment plans based on client progress and feedback.

Counseling and Support:

Facilitate one-on-one counseling sessions to address personal challenges, substance use behaviors, and coping strategies.

Provide emotional support, motivation, and guidance to clients, fostering a safe and trusting therapeutic environment.

Group Facilitation:

Lead and facilitate group therapy sessions, focusing on topics such as relapse prevention, coping skills, and life skills development.

Encourage peer support and foster a sense of community among clients.

Case Management:

Coordinate and manage client services, connecting clients with community resources, healthcare providers, and support systems.

Monitor client progress and adjust services as necessary, ensuring clients are receiving comprehensive care.

Program Evaluation:

Participate in program evaluation and quality improvement initiatives, providing feedback to enhance service delivery and client outcomes.

Maintain accurate and timely documentation of client interactions, progress, and outcomes.

Collaboration and Communication:

Work collaboratively with a multidisciplinary team, including healthcare professionals, social workers, and support staff, to ensure integrated care.

Communicate effectively with clients, families, and external agencies regarding client progress and needs.

Professional Development:

Stay informed about best practices in substance use treatment and participate in ongoing training and professional development opportunities.

Engage in regular supervision and consultation to enhance clinical skills and knowledge.
