Learning Through Research

INTRODUCTION

The WKU Student Research Conference showcases the scholarly activities of graduate and undergraduate students of diverse disciplines from across main and regional campuses. An annual tradition since 1970, the conference has provided opportunities for thousands of students to present talks, performances, posters, exhibits, and displays on their research and creative endeavors.

WKU has a rich history of scholarly engagement of students. Scholarly activity has been defined as original and creative work that is shared with colleagues and the general public. Research is a form of scholarly activity that involves the discovery of new knowledge. Other forms of scholarship include the development of new technologies, methods, materials or uses; the integration of knowledge that leads to new understanding; and artistry that creates new insights and interpretations.* As demonstrated by the Student Research Conference, students significantly enrich their academic experiences at WKU by engaging in scholarly activity.

Between 1970 and 2002, the WKU chapter of Sigma Xi organized and funded the WKU Student Research Conference. Sigma Xi is a national research honor society of scientists and engineers that recognizes scientific achievement. The society is a diverse organization of members and chapters dedicated to companionship in science and engineering and advancement of knowledge through research, teaching, and service. For the next three years, the conference was jointly sponsored and organized by Sigma Xi and the University Honors Program. In 2006, WKU hosted a weekend-long celebration of student scholarship that included the Potter College Undergraduate Conference on Friday and the annual WKU Student Research Conference on Saturday, the latter again sponsored by Sigma Xi and the University Honors Program. The following year, a special committee comprised of representatives of each college, the University Honors Program, and Sigma Xi organized the conference. In 2006-2007 Sigma Xi and the Office of the Provost provided financial support for the conference.

In 2008 Provost Barbara Burch created the Student Research Council, a university-wide committee charged with promoting student scholarly activity on campus and organizing the annual student conference. Since that year, the Student Research Council has organized the annual Student Research Conference, with financial support provided by the WKU chapter of Sigma Xi, the Office of the Provost, the Office of Research, and other university units.

With support from the Office of the Provost and the Office of Research, in 2012 the Student Research Council developed a weeklong celebration of student scholarship. This year REACH (Research Experiences and Creative Heights) Week spanned March 17-22 and featured a keynote address, in conjunction with the WKU Cultural Enhancement Series and the Gatton Academy for Math and Science, by noted physicist

* Weiser, C. J. (1996, March 7). The Value System of a University: Rethinking Scholarship. Retrieved 30 November 2010 at www.adec.edu/clemson/papers/weiser.html

Dr. Michio Kaku. REACH Week also featured research showcases hosted by nine WKU colleges and units. The Student Research Conference is the culminating activity of REACH Week.

— CONFERENCE HIGHLIGHTS —

With 383 research presentations, the 44th Annual WKU Student Research Conference is, by far, the biggest in the event's history. There are 185 oral presentations and 198 posters/exhibits, plus eight spotlight performances. A total of 281 undergraduate students and 102 graduate students are presenters this year. In addition, 65 students are co-primary authors and 144 are secondary authors.

The interdisciplinary nature of the conference is evident in the broad range of subject areas covered in the presentations. Student participants represent diverse disciplines from 47 departments, programs, and institutes in all colleges.

- Accounting
- African-American Studies
- Agriculture
- Allied Health
- Applied Physics Institute
- Architectural & Manufacturing Sciences

A variety of funding opportunities are available to assist students with their research. In 2012 the Office of Academic Affairs and the Office of Research initiated an internal funding program for undergraduate students called **Faculty-Undergraduate Student Engagement (FUSE) grants**. FUSE grants are designed to support students' intellectual development by fostering active engagement in the areas of research, creative and scholarly activities, and/or artistic performances. Nearly 200 undergraduate students have received FUSE grants over the past two years, many of whom are among the conference participants this year. Also, the WKU Graduate School provides grants to graduate students to support creative scholarship that promotes inquiry and contributions to knowledge. A number of the graduate students presenting today were assisted by funding from the Graduate School.

STUDENT SPOTLIGHT

This year the Student Research Council is pleased to spotlight the creative works of several undergraduate students. The performances will be held in GRH Auditorium and are open to the entire campus community; this is a swi-peable event for WKU students. Dr. Gordon Baylis will make introductory remarks.

In the most eclectic year yet for the Spotlight for Creative Activity and Performance, these presentations represent five different departments from across WKU. We begin by exploring the contrast between two poems: one collaborative and therapeutic, the other creative and cultural. After the creative readings, the collection takes a visual turn with video and photo presentations. Performance pieces close the hour with a DNA extraction demonstration and an a capella performance.

Creative Writing

Gerontology - Cherita Black

Cherita Black is a WKU Honors College student, a Psychology major, and Gerontology minor from Springfield, Tennessee. Cherita is a recipient of the F.U.S.E grant mentored by Dr. Dana Burr Bradley, the director of the Center for Gerontology. Cherita's F.U.S.E grant research formed the basis for her honors thesis, "Life Narratives and Poetry-Writing with Older Adults." Cherita investigated narrative life reviews and poetry-writing as an alternative approach to improving the social well-being of older individuals. Cherita will briefly present the methodology and recite each poem created with an elder.

Poetry - Haley Edwards

Haley Edwards is a senior Creative Writing/Arabic double major at WKU. Her work attempts to navigate Southern childhood and spiritual growth throughout travels in the Middle East. It seeks to find common ground between these various cultures which seem so inextricably linked within the poet herself.

Fiction - Katie Pickens

Katie Pickens is a senior from Owensboro. She is a creative writing major and literature minor. In Fall 2012, she was one of four WKU students selected to receive a scholarship for a Winter Writing Workshop led by Gurney Norman. She wrote her first novella, Tumors, this past semester—Fall 2013. It was the longest and most challenging story she'd taken on. It was also the most rewarding piece of writing she's ever completed. She has a journalism background, but switched majors to see if she was any better at writing about people in complex ways that felt more natural to her.

Creative non-fiction - Ashley Coulter

Ashley will read [wrote this too] from her original creative nonfiction [+ FREE lies] collection, to be published as an Honors Thesis this semester. His selected piece – "Delay" – extends a not-so-subtle intro[quack]tion to the collection's theme –What's n[ot]orm[e]al? Quack like duck, get it? Ash will start Teach For America this fall in Indianapolis.

Presentations

Film – Jayme Powell

Jayme Powell, a film major from Bowling Green, will present her film *Epiphany* and discuss the filmmaking process from concept to post-production. Jayme wrote, produced, and directed the film in spring 2013. Her interest in dreams led her to question what it would be like if someone realized they were dreaming and tried to control the outcome. The film is a look at the concept of lucid dreaming. This past fall, Jayme studied abroad at Harlaxton and over winter term she participated in a

faculty-led study away course that went to the Sundance Film Festival. Jayme has worked on several productions outside of WKU and is writing, producing and directing a second film this semester called *Scripted*. Her mentors are RonDeMarse, Ted Hovet, and Travis Newton.

Photojournalism – Jabin Botsford

Jabin Botsford is a senior photojournalism and sociology student at WKU. He has interned at *The New York Times*, *The Washington Post* and in the summer of 2014 will be interning at *The Los Angeles Times*. In October of 2013 he was a student at The Eddie Adams Workshop XXVI. He has been recognized by Pictures of the Year International, the College Photographer of the Year, The William Randolph Hearst Photojournalism Award program, the National Press Photographers Association, the Kentucky News Photographers Association, The Atlanta Photojournalism Seminar, and many others. His images and multimedia have been published in *The New York Times*, *The Washington Post*, *The Wall Street Journal*, *AARP*, and numerous other publications throughout the country.

Biology – Bobby Voyles

Bobby Voyles, a biology major from Owensboro, will present an innovative experiment “Banana DNA in a bag,” to illustrate the importance and prevalence of molecular biology in our daily lives, and also discuss how the scientific thought process is an integral part of our lives. Through this creative activity at SRC, Bobby is seeking to showcase how research can be a fun activity while answering crucial questions about life. Bobby is an active undergraduate research student who won both a FUSE grant and BSURE grant to pursue research in plant molecular biology. Bobby attends WKU-Owensboro, and his faculty mentor is Dr. Chandra Emani.

A capella ensemble – The Redshirts

The Redshirts are the premier male vocal ensemble at WKU! But that sounds too extravagant; these are a group of ambitious young men who love music, performance, hanging out with each other, and love to share their music with the community. The Redshirts sing repertoire from Doo-wop, Standards, Contemporary, and Choral, to Musical Theater, Jazz and Pop. Their wide repertoire and performance capabilities are what makes this men’s a capella group so unique! These young men are continually seeking new ways to positively entertain as well as inspire young men to keep singing and expressing themselves. CONFERENCE SPEAKER

Dr. Shea is a paleoanthropologist whose research focuses on the archaeology of human origins. His interests span the length of the Paleolithic period. These include early hominid adaptive radiations, the origin of *Homo sapiens*, the extinction of the Neandertals, and the end of the Later Stone Age in Africa. He has investigated these subjects through projects in Israel, Jordan, Eritrea, Ethiopia, and Kenya. His most recent fieldwork focuses on Later Stone Age sites in the Early Holocene Galana Boi Formation, West Turkana, Kenya. This latter work is being carried out in conjunction with the Turkana Basin Institute and in collaboration with Prof. Elisabeth Hildebrand.

He is an expert flintknapper and skilled replicator of primitive technologies. He uses the results of stone knapping and tool use experiments to improve archaeological methods for reconstructing human behavior through the analysis of stone tools. His most recent research in this area focuses on the origins of stone projectile point technology.

Dr. Shea's presentation is open to the entire campus community and is a swiipeable event for WKU students. It is sponsored by the WKU chapter of Sigma Xi.

AWARDS CEREMONY

WKU faculty and professional staff judge student presentations, performances, posters, and exhibits at the conference. The judges select one winner from each of the 69 sessions listed on pages 15-36 in this program.

Conference session winners are announced and acknowledged at the Awards Ceremony in GRH 1074 following Dr. Shea's Sigma Xi presentation in the late afternoon. All students who presented papers and posters at the conference, as well as family members, friends, faculty mentors, and administrators, are invited to attend. WKU Provost and Vice President for Academic Affairs Dr. Gordon Emslie will make remarks and recognize the session winners.

INFORMATION TABLES

Representatives from a variety of campus offices and organizations are hosting informational tables in the first-floor lobby during the conference. Students are welcome to visit the information tables throughout the day.

KIIS Study Abroad is recognized as a leader in international education and is one of the most cost-effective study abroad organizations in the United States. Every summer KIIS provides WKU students over 100 course options in a range of academic disciplines (<http://www.kiis.org/go/COURSES.php>) in 27 programs in Europe, Africa, Asia, Canada, and Latin America. KIIS programs are faculty-led and all course credit is issued by WKU. Undergraduate, graduate, honors, and non-degree seeking students are welcome to apply. WKU faculty are invited to teach abroad with KIIS. Visit www.kiis.org for scholarship, application, and program information. **Contact** Dr. John Dizgun in Tate Page Hall 129 or at kiis@wku.edu or 270-745-4416.

The **WKU Graduate School** is pleased to support graduate student research through competitive grants and travel awards. Graduate study at WKU is an excellent route to continued academic and career success. For more information on graduate program opportunities at WKU, please be sure to stop by our table. **Contact** Colette Chelf at colette.chelf@wku.edu.

The intellectual environment of the **Honors College** at WKU is comparable to a smaller, liberal arts institution with the undergraduate resources of a mid- to large-size public university. The Honors in the Major program may be of particular interest to current students wishing to apply to Honors with a higher number of credit hours. Applications are available online for Fall 2014 at www.wku.edu/honors. **Contact** Honors Admission Counselor Allison Smith at allison.smith@wku.edu with questions.

The **Office of Scholar Development** (OSD) works with students and their mentors to build research and creative agendas, helps students identify appropriate national and international scholarship opportunities, and provides intensive writing support throughout the application process. Whether you are looking for funding for a specific project or just curious about potential national and international scholarship opportunities, OSD can help. **Contact** an OSD representative for more information about how to make your big dreams come true. Email osd@wku.edu to schedule an appointment. For information about scholarships and past scholarship recipients, visit www.wku.edu/osd.

ACKNOWLEDGEMENTS

On behalf of the entire campus community, the members of the WKU Student Research Council extend appreciation and congratulations to the hundreds of students who participated in the conference. We applaud your talent, creativity, dedication, and commitment to making the most of your educational experience at WKU. Your passion for learning and academic excellence, as well as your motivation to meet and overcome challenges, not only distinguishes you from your peers, it serves as an inspiration to others. We are proud of your accomplishments, and you should be, too.

Faculty members who served as mentors to students are identified throughout the conference schedule. We commend the 186 faculty mentors for their support of student scholarly activities and for their assistance in preparing students for the conference.

A total of 114 WKU faculty/staff serving as conference session judges are listed below. We greatly appreciate the support of the judges.

Funding for the 44th Annual WKU Student Research Conference and other REACH Week activities was provided by the Office of the Provost and Vice President for Academic Affairs, the Office of Research, and the WKU Chapter of Sigma Xi.

The Office of Public Affairs developed electronic advertising, provided photography services for REACH Week events, prepared press releases, and designed the conference artwork. Special thanks to Alicia Carter, Scott French, Tom Meacham, and Tommy Newton.

Web support was provided by Diana Keeling and Leyla Zhuhadar. Scott Lyons and Jeanie Adams-Smith arranged travel for John Shea. Jennifer Tougas and staff in the Parking and Transportation Office provided parking maps and shuttles for REACH Week events.

Honors Toppers, Office of Scholar Development Ambassadors, Gatton Academy students, and the Exercise Science Club assisted at the conference and other REACH Week events. Special thanks to Leslie Baylis, Audra Jennings, Jill Maples, and Derick Strode.

The College of Education and Behavioral Sciences Dean's Office provided logistical support for the conference. Special thanks to Sam Evans, Jackie Pope-Tarrence, Sharon Hartz, and Susan Krisher. The Department of Folk Studies and Anthropology, the Office of the Vice-President for Research, and the Office of the Provost provided additional conference support. Special thanks to Jennifer Cole, Kim Newell, Teresa Jackson, Gordon Baylis, and Gordon Emslie. The Music Department provided music stands for the conference. Special thanks to Jacob Tabor and Gary Schallert.

Support for the "Be an Academic Rock Star" student workshop series was provided by the Interactive Video Services Office. Special thanks to Brandon Davidson, Jacob Hamlin, and Tamela Smith. Josh Marble and staff in the Technology Resources Center edited workshop videos.

The WKU Student Research Council organizes the conference. Members represent each college, University Senate, and Student Government Association: Scott Lyons (Chair), Jeanie Adams-Smith, Scott Arnett, Leslie Baylis, Dana Bradley, Colette Chelf, Jennifer Cribbs, Vlad Dobrokhoto, Chandra Emani, Lance Hahn, Bob Hatfield, Andrew Mienaltowski, Lynn Minton, David Mokone, Tamera Race, Lawrence Snyder, Derick Strode, and Leyla Zhuhadar. For more information about the Council, visit www.wku.edu/studentresearch.

- 11:45 **Keri Younger** Equivalent Temperature Trends Across Kentucky (Rezaul Mahmood)

Room: GRH 2002

Judges: Ms. Shahnez Aly and Dr. Robert Wyatt (moderator)

- 10:15 **Monic Shah** Spectroscopy Confirmation For Encapsulation Of Antibiotic Onto Gold Nanoparticles (Rajalingam Dakshinamurthy)
- 10:30 **Yogesh Kherde** Green Synthesis, Characterization Of Sugar Coated Gold Nanoparticles For Catalytic Applications (Rajalingam Dakshinamurthy)
- 10:45 **Hitesh Kumar Waghvani** Direct Aminoglycoside Coated Gold Nanoparticles Synthesis, Characterization And Antibacterial Susceptibility Testing (Rajalingam Dakshinamurthy)
- 11:00 **Tulsi Modi** Molecular Level Interaction Of Human Fibroblast Growth Factor-1 (hfgf-1) With Anti-diabetic Drug (Rajalingam Dakshinamurthy)
- 11:15 **Arezo Mehrabi** Employing Best Practices of Project Risk Management in Healthcare Organizations (Ahmed Khalafallah)
- 11:30 **Pegah Kakavand** Integrating Earned Value Analysis and Risk Management Techniques to Improve Cost and Time Estimation (Ahmad Khalafallah)
- 11:45 **Andrew Austin** Improving Process Capability In A Computer Integrated Manufacturing (cim) Cell (Greg Arbuckle)

Room: GRH 2005

Judges: Dr. Lorraine Bormann and Dr. Xingang Fan (moderator)

- 10:15 **Harika Javangula** Comparative Studies On Standard And Fire-rated Gypsum Wallboards (Quentin Lineberry)
- 10:30 **Kelly Derham** African Elephant (*loxodonta Africana*) Impact To Marula (*sclerocarya Birrea*), Knobthorn (*acacia Nigrescens*), And False Marula (*lannea Schweinfurti*) In The Associated Private Nature Reserves, South Africa. (Bruce Schulte)
- 10:45 **Sukyeon Lee** Electrically Controlled Formation And Release Of Admicelles For Solid Phase Extraction (Eric Conte)
- 11:00 **Natalie Jones** Tetracyclines In Swine Waste (Dr. Eric Conte)
- 11:15 **Kegan McClanahan** Utilizing $\delta^{13}\text{C}$ To Track The Riverine Carbon Cycle In A Karstified Catchment (Jason Polk)

- 11:30 **Dan Nedvidek** Evaluating The Effectiveness Of Regulatory Stormwater Monitoring Protocols On Groundwater Quality In Urbanized Karst Regions (Jason Polk)
- 11:45 **Veronica Hall** Addressing Water Resource Issues In Barbados From An Isotopic And Atmospheric Characterization Of Precipitation Variability (Jason Polk)

Room: GRH 2006

Judges: Dr. Nezam Iraniparast and Dr. Thomas Kingery (moderator)

- 10:15 **Shashidhar Annarapu** Thermal Analysis Of Binding Of Organic Pollutants To Titanium Dioxide (Matthew Nee)
- 10:30 **Elizabeth Tyrie** Using Eye-tracking Techniques To Assess The Effectiveness Of Karst Visualizations: Seeing Through The Complexities Of Karst Environments (Leslie North)
- 10:45 **Mahdi Bandegi** A Coupled Pde Model For Morphological Instability Of A Multi-component Thin Film During Surface Electromigration (Mikhail Khennner)
- 11:00 **Elizabeth Malloy** Trophic Dynamic Interactions In A Temperate River: A Comparison Between High And Lower Karst Flow Reaches (Scott Grubbs)
- 11:15 **Laura Osterhoudt** Geochemistry And Carbonate Mineral Interactions In The Upper Green River Basin, Kentucky (Chris Groves)
- 11:30 **Jingyi Yue** Graphene From Electrochemically Exfoliated Graphite (Yan Cao)
- 11:45 **Skylar Wall** Suzanne Vitale Clinical Education Complex (Robert Hatfield)

Room: GRH 2008

Judges: Dr. Lauren Bland and Dr. Lisa Duffin (moderator)

- 10:15 **Dzenana Kadric** The Iraqi Community In Bowling Green (Alex Olson)
- 10:30 **Jonathan Serpico** Analysis Of Systematic Error In Parity Violating Proton Asymmetry In The $3\text{He}(n,p)t$ Reaction (Ivan Novikov)
- 10:45 **Paige Huzyak** Poly Oligomeric Silsesquioxane Anthracene Dendrimers And Potential Thermoelectric Generation Devices (Hemali Rathnayake)
- 11:00 **Courtney Broyles** Thermal Inactivation Of Escherichia Coli O157:h7 In Moisture Enhanced Non-intact Beefs As Affected By Internal Temperature, Moisture Enhancing Rate, And Resting Time By Double Pan-broiling (Cangliang Shen)
- 11:15 **Darren Tinker** Project-based Learning: The Evolution Of A Senior Project To A Laboratory Test Bed (Robert Choate)
- 11:30 **Isaac Kresse** A Photocatalytic Reactor For Use With Raman Spectroscopy To Analyze Photocatalytic Degradation (Matthew Nee)
- 11:45 **Hannah Rodgers** Single Step, Antibiotic Mediated Synthesis Of Gold Nanoparticles With Potent Antimicrobial Activity (Rajalingam Dakshinamurthy)

Room: GRH 2010

Judges: Dr. Beverley Holland and Dr. Mark Schafer (moderator)

- 10:15 **Aaron Tagliaboschi** Development Of A Method To Convert Fortran Potential Energy Surface Subroutines To The Potlib2001 Standard (Jeremy Maddox)
- 10:30 **Adam Edge** Examining Human Perception Of African Elephants (*loxodonta Africana*) And Large Trees For Insights Into Conservation Of An African Savanna Ecosystem (Bruce Schulte)
- 10:45 **Clarice Esch** A Native Cyanobacteria, *Nostoc*, As A Biofertilizer (Martin Stone)
- 11:00 **David Sams** Sleep Deprivation Increases Cytokine Gene Expression And Plasma Corticosterone Levels In A Murine Model: A Possible Link Between Stress And Inflammation? (Noah Ashley)
- 11:15 **Jacob Hughes** Analysis Of Fluid-inclusions In Sphalerite From Columbia, Ky (Andrew Wulff)
- 11:30 **Justin Wellum** Critical Analysis Of The Kenyan Health Care System And Models For Improvement (Sam McFarland)
- 11:45 **Kayla Steber** Student Attitude And Gender In Relation To Student Participation In Physical Activity (Pamela Jukes)

Room: GRH 2065
