Why Should You Support This Initiative?

- There are 7,000 chemicals in secondhand smoke and 70 of them are known carcinogens.
- Any exposure level of secondhand smoke is harmful and there is no safe way to use tobacco products.
- 1 in 5 deaths annually are associated with smoking.
- The largest preventable cause of disease and premature death is tobacco in the United States.
- Tobacco products cause oral, esophageal, stomach and pancreatic cancers.
