

PARK MOBILE PERMITS

HOW IT WORKS

- As an alternative to buying an annual parking permit, students or faculty/staff can choose to pay for parking when they want to park on campus.
- Use the ParkMobile Reservation website, www.wku.pmreserve.com, to locate, reserve and pay for available parking on campus.
- With reservation in hand, drive to campus and park in your reserved location.
- Reservation in Faculty/Staff lots are only valid in designated ParkMobile spaces, indicated with a ParkMobile sign.

- Students lots require an active reservation to park within the lot.
- ParkMobile permits are available for a \$10 registration fee.
- Gated lots require a Parkmobile or active WKU permit for access.
- Reservations can also be made with license plate number in non-gated lots.
- Parking fees vary according to location. Refer to PTS website www.wku.edu/transportation or www.wku.pmreserve.com.
- Availability of reserved parking spaces may vary by day depending on demand or campus activities.
- There will always be parking available through the ParkMobile reservation platform, but it may be in Park and Ride lot.
- Annual permit holders may use the ParkMobile reservation system. Use your current permit number to receive a discount.
